

## EMEA FX Trade Ideas Disclosures

The disclosures set out in this document apply to trade ideas ("**FX trade ideas**") with respect to foreign exchange spot and/or derivative transactions ("**FX Transactions**") that are produced and/or distributed by sales and trading personnel of the BNY entities and branches listed below.

### WHO AND WHAT FX TRADE IDEAS ARE FOR

FX trade ideas are marketing material, desk strategy and/or trader commentary for sophisticated investors and market professionals, and any information or statements contained in them are for general information and reference purposes only. They are intended for wholesale/professional clients (or the equivalent only) and are not intended for use by retail clients and no other person should act upon them. Persons who do not have professional experience in matters relating to investments should not rely on FX trade ideas. BNY will only provide the relevant investment services, and FX trade ideas are only being distributed, to investment professionals.

FX trade ideas are provided for information purposes only and do not bind BNY in any way. They are not intended as a recommendation (except to the extent they are an "investment recommendation" under MAR (as defined below)) or an offer or solicitation for the purchase or sale of any security or financial instrument, or to enter into a transaction involving any financial instrument or trading strategy, or as a formal valuation of any transaction mentioned in FX trade ideas. Any pricing information provided is indicative only.

Transactions involving financial instruments and/or strategies mentioned in FX trade ideas may not be suitable for all clients.

FX trade ideas, which may be considered advertising, are for general information purposes only and are not intended to provide legal, tax, accounting, investment, financial or other professional advice on any matter or as creating a fiduciary relationship. FX trade ideas do not constitute advice by BNY of any kind. BNY is not an adviser. The trade ideas are not prepared on the basis of your individual circumstances.

If distributed in the UK, the FX trade ideas are a financial promotion. If distributed in the EU, the FX trade ideas are a marketing communication.

The information provided herein does not constitute an offer of financial instrument or an offer to provide financial service in Switzerland pursuant to or within the meaning of the Swiss Financial Services Act ("**FinSA**") and its implementing ordinance. Please be informed that The Bank of New York Mellon and The Bank of New York Mellon SA/NV enter into OTC derivative transactions as a counterparty, i.e. acting for their own account or for the account of one of their affiliates. As a result, where you enter into any OTC derivative transactions with us, you will not be considered a "client" (within the meaning of the FinSA) and you will not benefit from the protections otherwise afforded to

clients under FinSA. Accordingly, this should not be considered an advertisement pursuant to or within the meaning of FinSA and its implementing ordinance.

## **RESEARCH DISCLOSURE**

The FX trade ideas are not a “research report”, “investment research”, a “research recommendation” or “independent research” as may be defined in applicable laws and regulations. They have not been prepared in accordance with legal requirements to promote the independence of research, and are not subject to any prohibition on dealing ahead of dissemination of investment research. As the FX trade ideas are made “openly available” by BNY (subject to measures to ensure no retail distribution) it is not intended for them to be “research” as defined in Recital 28 of the Commission Delegated Directive (EU) 2017/593 or the Financial Conduct Authority Handbook (as derived therefrom).

The FX trade ideas have been prepared by sales and/or trading personnel of BNY. They have not been produced or distributed by BNY’s strategy department, by any research department or any registered research analysts. Any opinions expressed in this commentary are solely those of the author, who is a member of a BNY FX Sales or Trading desk, and may differ from opinions expressed by BNY’s strategy department or any research department/registered research analysts.

## **RESTRICTIONS**

FX trade ideas are for the exclusive use of the persons to whom they are distributed. They are not intended for distribution to, or use by, any person or entity in any jurisdiction or country where such distribution would be contrary to law or regulation, and may not be reproduced or disseminated in any form without the prior written permission of BNY.

FX trade ideas may not be used for the purpose of providing any services or making any offers or solicitations in any jurisdiction or in any circumstances in which such products, services, offers or solicitations are unlawful or not authorised, or where there would be, by virtue of such distribution, new or additional registration requirements, or obligations on BNY. Trademarks, product names, company names, logos and other intellectual property marks belong to their respective owners.

## **CONTENT OF FX TRADE IDEAS AND LIMITATIONS ON BNY’S LIABILITY**

The FX trade ideas are based on market prices, data and other information from third party sources believed to be reliable and aggregated and anonymised data and related commentary produced by BNY (e.g. iFlow®). BNY makes no representation or warranty as to accuracy, completeness, timeliness, suitability or validity of any information presented in FX trade ideas and will not be liable for any errors, omissions, or delays in this information or any direct or consequential losses, injuries or damages arising from its display or use and no representation is made that any returns will be achieved through its use. Information included in FX trade ideas, or on which they are based, may change without notice, and BNY does not undertake any obligation to update it. Any pricing information provided is indicative only and does not reflect a level where BNY is prepared to execute a trade. Variations in rates of exchange may have an adverse or beneficial effect on the value of investments or concepts referenced in FX trade ideas.

BNY disclaims any responsibility or liability to the fullest extent permitted by applicable law, whether in contract, tort (including, without limitation, negligence), equity or otherwise, for any loss or damage arising from any reliance on or the use of FX trade ideas in any way. The contents may not be comprehensive or up to date and there is no representation, warranty or undertaking as to the accuracy, timeliness, completeness or fitness for a particular purpose of information given.

FX trade ideas may contain or include certain “forecast” statements that may reflect possible future events based on current expectations. Forecast statements are neither historical facts nor assurances of future performance, and constitute the current judgment of the producer(s) of an FX trade idea as of the date and time at which it is produced. Forecast statements typically include, and are not limited to, words such as “anticipate”, “believe”, “estimate”, “expect”, “future”, “intend”, “likely”, “may”, “plan”, “project”, “should”, “will”, or other similar terminology and should NOT be relied upon as accurate indications of future performance or events. Because forecast statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Any analysis or forward-looking information provided is intended only to illustrate hypothetical results based on certain assumptions. Actual events or conditions may differ from assumptions made in FX trade ideas; no result based upon reliance on any the FX trade ideas is promised or guaranteed.

BNY is not responsible for any third party website or website content (including, without limitation, any advertising appearing therein) which can be accessed through the website at . BNY may include links to other websites for information purposes only and makes no representation whatsoever about any such link, website or consent.

## **WHAT YOU SHOULD DO**

You should discuss FX trade ideas with appropriate advisors in the context of your circumstances before acting in any manner on them or agreeing to use any of the referenced products or services and make your own independent assessment (based on such advice) as to whether the referenced products or services are appropriate or suitable for you in light of your experience, objectives, financial and operational resources and other relevant circumstances.

Before entering into any transaction, you (or any agent you employ for such purpose) should conduct a thorough and independent evaluation of the terms of the transaction in light of your particular circumstances and the nature and extent of your exposure to risk. You should also consider whether the transactions are appropriate for you in light of your experience, objectives, financial and operational resources and other relevant circumstances. If you are acting as an adviser or agent, you should evaluate these considerations in light of circumstances applicable to your principal and the scope of your authority.

Financial instruments or strategies referenced in FX trade ideas may not be available in all jurisdictions or to all clients. Not all products and services are offered in all countries. Clients should contact their salespersons at, and execute transactions through, a BNY entity appropriately licensed in the client’s respective jurisdiction unless governing law permits otherwise.

Persons accessing, or reading, FX trade ideas are required to inform themselves about and to observe any restrictions that apply to the distribution of this information in their jurisdiction. Use of our products and services is subject to various regulations and regulatory oversight.

## RISK WARNINGS FOR FX TRANSACTIONS

FX Transactions involve certain risks. You should not enter into FX Transactions unless you understand the nature and the extent of exposure to risk you may incur. This document does not provide an exhaustive list of all of the potential risks of entering into FX Transactions. It is intended to provide you with a general description of the nature and risks of FX Transactions.

Please refer to the General Disclosure Statement for Transactions (a copy of which can be found at the link below) which describes the general risks of entering into derivative transactions. For the purpose of this document, references to "FX Transactions" herein shall be the same as references to "Transactions" in the General Disclosure Statement for Transactions, which should be read to refer to derivatives transactions generally. See for more information.

Please refer to the Disclosure Annex for Foreign Exchange Transactions (a copy of which can be found at the link below) which describes specific risks associated with FX Transactions. For the purpose of this document, references to "Foreign Exchange Transactions" in the Disclosure Annex for Foreign Exchange Transactions should be read to include "FX Transactions" as defined under this Disclosure. See for more information.

FX Transactions expose investors to the risk of adverse changes in foreign currency exchange rates. Foreign currency exchange rates can be volatile and are driven by a variety of factors relating to the economies of the territories whose currencies are being traded. A movement in foreign currency exchange rates may have a favourable or an unfavourable effect on the gain or loss achieved on such transactions. The weakening of a country's currency relative to a benchmark currency or the currency of a client's portfolio negatively affects the value of an investment denominated in that currency.

This document and the other disclosure documents referred to above are not intended to disclose all risks of all FX Transactions and you should not rely on the highlighted risks as being the only risks in relation to FX Transactions. You should read any provided product/transaction specific disclosures or documentation.

Past performance is not a guide to future performance of any instrument, transaction or financial structure and a loss of original capital may occur.

## MAR DISCLOSURES

**MAR:** The production and dissemination of FX trade ideas that constitute "investment recommendations" as that term is defined in Article 3(1)(35) of Regulation (EU) No 596/2014 on market abuse (including as that Regulation is implemented into United Kingdom ("**UK**") domestic law and regulation) ("**MAR**") are subject to the relevant provisions of MAR. The additional disclosures set out below are provided for such purposes.

**Date, time, validity and updating of FX trade ideas:** Each FX trade idea is produced as of the date and time specified and should be treated as a one-time communication that is valid on the date of its distribution. There is no plan to update any FX trade idea.

**Date and time of price of financial instruments:** Prices of financial instruments are current as of the time stamp for the production of that FX trade idea. All such prices are indicative and may be subject to rapid change. No assurance is given that transactions could be executed at prices specified in FX trade ideas. As such, FX trade ideas have inherent limitations that recipients must consider carefully.

**Meaning of “buy” and “sell” recommendations:** “Buy” and “sell” recommendations in an FX trade idea are a recommendation as to the side of the FX Transactions to be invested in on the date on which the FX trade idea is produced.

**12 month FX trade idea history:** A list of all FX trade ideas that the entities disseminated over the preceding 12 months by the entities specified at the beginning of this document can be accessed at <https://www.bny.com/corporate/emea/en/fx-trade-ideas/2024.html>

**Valuation methodology:** FX trade ideas take into account market colour, information provided by news agencies and other third party sources aggregated and anonymised data and related commentary produced by BNY (e.g. iFlow®) and general trading trends. Unless specified otherwise therein, FX trade ideas do not reflect an analysis of the fundamental economic value of the instrument or instruments referenced in them, and no valuation methodology has been used to produce them.

**Disclosure of interests or conflicts of interest:** FX trade ideas are prepared by BNY FX Sales and Trading personnel. The views and opinions expressed in them are of the relevant authors and/or desk and are not as such the opinion of BNY. Others at BNY may have opinions or express views that are opposite or different to those expressed in FX trade ideas. BNY Sales and Trading personnel who prepare FX trade ideas may be compensated based on trading activity.

BNY, an affiliate or some other person connected with BNY, may have an interest, relationship or arrangement that is material in relation to FX Transactions referenced in FX trade ideas. BNY may have long or short positions, effect transactions or make markets in any currency, derivative or instrument discussed mentioned in FX trade ideas, or in related instruments. BNY and its affiliates may also engage in hedging or other positioning activity for their own account or on behalf of another client before or after the production and/or dissemination of FX trade ideas referencing FX Transactions in order to manage its exposure under such transactions, its general market risk, or other trading activities. Such activity may adversely affect the price that recipients of FX trade ideas receive. Any profits derived from these activities may be retained by BNY to the extent permitted by applicable law and regulation.

BNY’s market making, risk management and other trading activities may impact the prices for FX Transactions referenced in FX trade ideas and the availability of liquidity at levels necessary to execute such transactions with BNY. These activities may also trigger or prevent triggering of stop loss orders, take profit orders, barriers, knock-outs, knock-ins and similar terms or conditions.

Conflicts of interest may also arise between BNY’s different clients. Where BNY acts as a market maker and is managing orders for multiple clients whose interests may conflict with one another or with BNY’s own interests (e.g., in the wholesale FX market), BNY may trade prior to or alongside a client’s transaction. These activities can have an impact on the prices BNY offers clients in respect to an FX

Transaction, and the availability of liquidity at levels necessary to execute client orders. Also, as they may affect market prices, they may inadvertently result in limit orders being triggered.

BNY or any of its affiliates may also act as agent for, provide banking, custody, investment management or other services to, and generally engage in any kind of business with, others to the same extent as if BNY was not an FX counterparty or service provider. Nothing in this document shall be deemed to restrict the right of BNY or its affiliates to perform such services for any other person or entity, and the performance of such services for others will not be deemed to violate or give rise to any duty or obligation to You not specifically undertaken by BNY.

If BNY, or any of its affiliates, provide services which are ancillary to BNY's functions under this Disclosure, BNY or any of its affiliates, as appropriate, may receive and retain any fee, commissions, spreads or other compensation in relation to such service, business or activity to the extent permitted by applicable law and regulation.

In view of the above considerations, FX trade ideas should not be relied upon as either objective or independent from the interests of BNY, or from its associated affiliates and personnel. Such interests may conflict with the interests of recipients of FX trade ideas.

BNY is required to and does maintain and operate effective organizational and administrative arrangements with a view to taking all reasonable steps designed to prevent conflicts of interest from adversely affecting the interests of its clients. BNY seeks to identify any actual and potential conflicts of interest, and to eliminate or, if this is not possible, effectively manage these conflicts.

**Disclosure of personal interests or conflicts of interest:** Personnel who produce an FX trade idea have disclosed any personal conflicts of interest in the body of the FX trade idea.

## **RELEVANT BNY ENTITIES AND REGULATORS**
