Insight Investment is a leading asset manager with a clear mission and purpose; to offer investors a different approach to achieving their investment goals; one that prioritizes the certainty of meeting their chosen outcomes in contrast to the traditional focus on maximizing return and minimizing volatility. Founded in 2002, Insight has spent the last two decades building a differentiated investment platform that focuses only on areas where it believes it has a clear investment edge. Insight's model rests on a simple equation: high quality leads to client advocacy which translates into business success. Our collaborative approach encourages continuous improvement and long-term partnerships with clients and has supported growth in its core liability-driven investment, risk and liquidity management, full-spectrum fixed income, currency and absolute return capabilities.

As a responsible steward of society's savings, Insight also views the communities in which it operates as stakeholders in its business. It seeks an alignment that goes well beyond regulatory requirements and a focus on environmental, social, and governance factors (ESG) forms part of that alignment.

Insight is headquartered in London, with other key offices in New York, Boston, San Francisco, Dublin, Frankfurt, Manchester, Sydney and Tokyo. An investment in a mutual fund, including any money market fund, is not a deposit of any bank and is not insured or guaranteed by any bank, the FDIC or any other governmental agency. Although a money market fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in a money market fund. Yield fluctuates.

WALTER SCOTT

Investment Focus

Global Equity Investment Management

Established

1983

Locations

Boston, MA and Edinburgh

Walter Scott was established in 1983 to offer global equity portfolio management to institutional investors around the world.

Since inception, Walter Scott has remained wholly committed to global equity investing. Our core conviction is that over the long term, returns to shareholders can only ever be as great as the wealth generated by the underlying businesses in which they are invested.

Our primary task is therefore identifying those companies we believe are capable of sustaining the highest rates of wealth generation. We do so using original, fundamental research carried out by our own team across an investment universe that is unrestricted by region, market sector or benchmark. Walter Scott's truly global approach views the world as a single universe of opportunities. In our view this affords greater opportunity for diversification through access to some of the world's best companies and allows investment without bias among regions, countries and sectors, taking advantage of the most attractive valuations and prospects for growth.

Walter Scott & Partners Limited is registered in the U.S. as an investment adviser under the Investment Advisers Act of 1940.

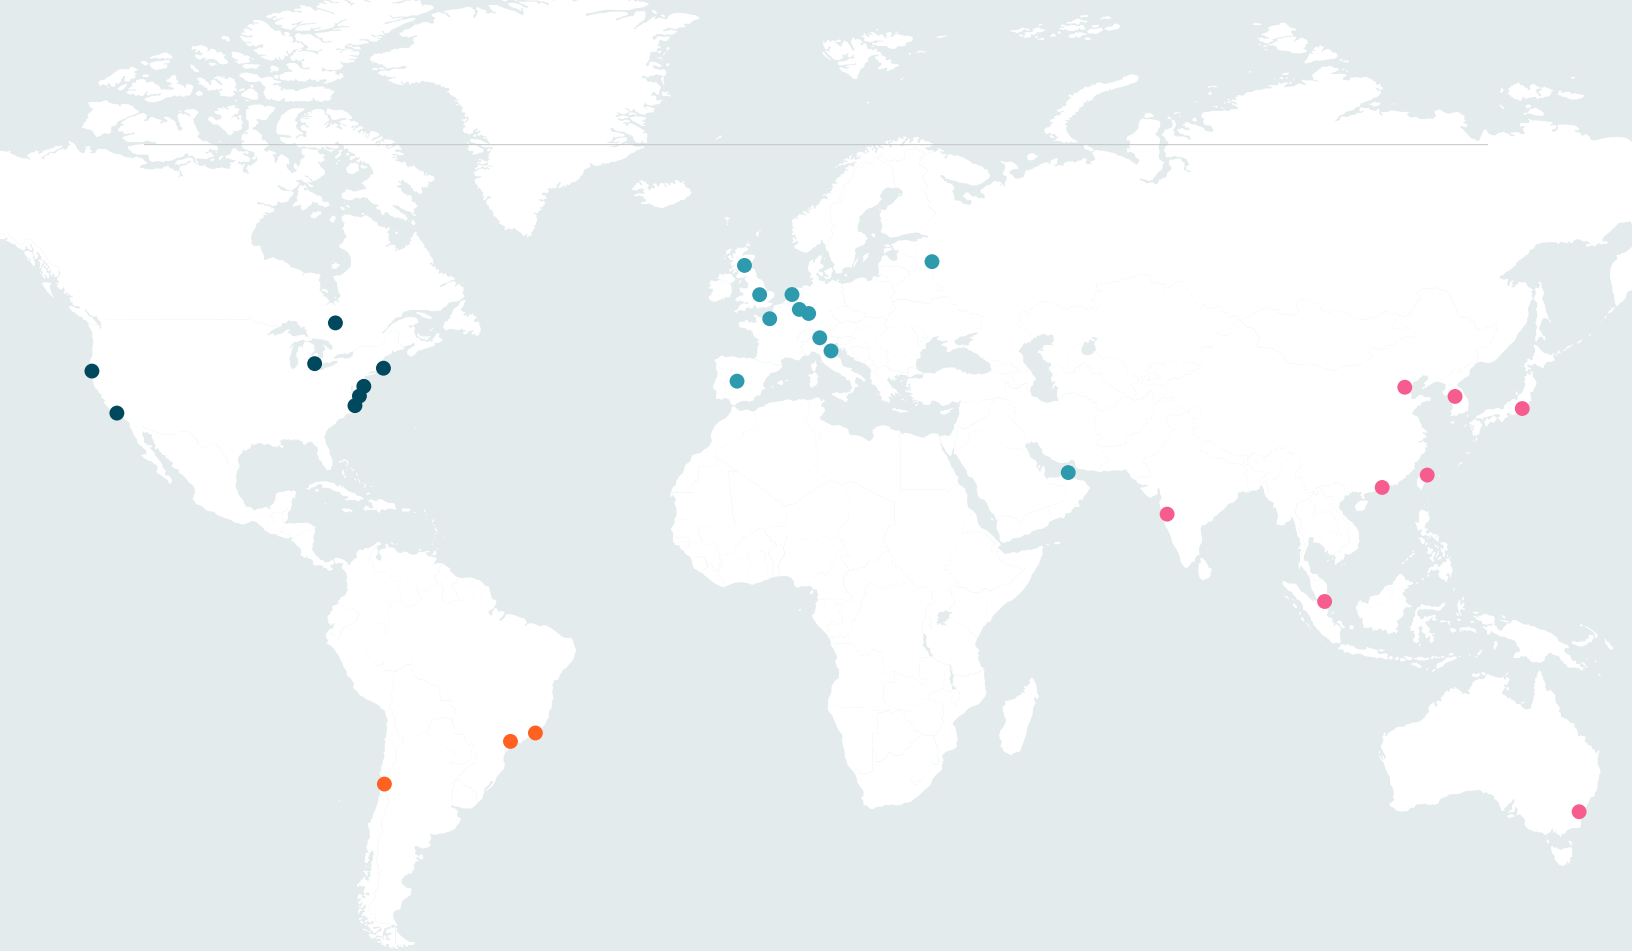

Authorized and regulated in the U.K. by the Financial Conduct Authority. The registered address for Walter Scott & Partners Limited is One Charlotte Square, Edinburgh, EH2 4DR, Scotland.
