Dear Investor,

This letter contains important information about your investment in the BNY Mellon Multi-Asset Income Fund ('the Fund'), a sub-fund of BNY Mellon Investment Funds (BNY MIF).

BNY Mellon Fund Managers Limited (BNY MFM) is the authorised corporate director for BNY MIF.

No action is required from you.

Following a regular product review, we (BNY MFM), are changing the performance benchmark for the Fund as set out in the table below.

The Fund is managed without benchmark-related constraints; however, the current performance benchmark has been provided as a comparator.

This update is to clarify that the current performance benchmark is intended to be used as an income reference for the Fund's yield rather than a performance benchmark. As such, this will be used as the Fund's yield comparator.

The new performance benchmark is a suitable performance comparator as it offers a broad representation of funds with similar levels of equity and bond exposure as the Fund. This change will ensure that the Fund and the value it delivers are assessed in a manner more reflective of how it is managed.

Current Performance Benchmark	New Performance Benchmark and Yield Comparator as at 1 August 2025
60% MSCI AC World Index and 40% ICE Bank of America Global Broad Market GBP Hedged Index	Yield Comparator: 60% MSCI AC World Index and 40% ICE Bank of America Global Broad Market GBP Hedged Index Performance Benchmark: UK Investment Association's Mixed Investment 40-85% Shares NR Sector Average

This change will take effect on or around 1 August 2025. The BNY MIF prospectus will be updated to reflect this change.

There will be no change to the risk profile of the Fund and no change to the way that it is managed.
