BNY Mellon Strategic Municipals, Inc.

ANNUAL REPORT

September 30, 2024

BNY Mellon Strategic Municipals, Inc.

Protecting Your Privacy Our Pledge to You

THE FUND IS COMMITTED TO YOUR PRIVACY. On this page, you will find the fund's policies and practices for collecting, disclosing, and safeguarding "nonpublic personal information," which may include financial or other customer information. These policies apply to individuals who purchase fund shares for personal, family, or household purposes, or have done so in the past. This notification replaces all previous statements of the fund's consumer privacy policy, and may be amended at any time. We'll keep you informed of changes as required by law.

YOUR ACCOUNT IS PROVIDED IN A SECURE ENVIRONMENT. The fund maintains physical, electronic and procedural safeguards that comply with federal regulations to guard nonpublic personal information. The fund's agents and service providers have limited access to customer information based on their role in servicing your account.

THE FUND COLLECTS INFORMATION IN ORDER TO SERVICE AND ADMINISTER YOUR ACCOUNT. The fund collects a variety of nonpublic personal information, which may include:

- Information we receive from you, such as your name, address, and social security number.
- Information about your transactions with us, such as the purchase or sale of fund shares.
- Information we receive from agents and service providers, such as proxy voting information.

THE FUND DOES NOT SHARE NONPUBLIC PERSONAL INFORMATION WITH ANYONE, EXCEPT AS PERMITTED BY LAW.

Thank you for this opportunity to serve you.

The views expressed in this report reflect those of the portfolio manager(s) only through the end of the period covered and do not necessarily represent the views of BNY Mellon Investment Adviser, Inc. or any other person in the BNY Mellon Investment Adviser, Inc. organization. Any such views are subject to change at any time based upon market or other conditions and BNY Mellon Investment Adviser, Inc. disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund in the BNY Mellon Family of Funds are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any fund in the BNY Mellon Family of Funds.

DISCUSSION OF FUND PERFORMANCE (Unaudited)

How did the Fund perform last year?

For the 12-month period ended September 30, 2024, BNY Mellon Strategic Municipals, Inc. (the "fund") produced a total return of 19.49% on a net-asset-value basis and 26.86% on a market basis. Over the same period, the fund provided aggregate income dividends of \$.2280 per share, which reflects a distribution rate of 3.50%. In comparison, the Bloomberg U.S. Municipal Bond Index (the "Index"), the fund's benchmark, posted a total return of 10.37% for the same period.³

What affected the Fund's performance?

- Early in the period, the market was hampered by higher inflation and a tight monetary policy. The market rebounded later in the period supported by anticipation that Fed rate-hiking was nearing an end and then additionally by the Fed rate cut in September.
- Relatively long duration and an emphasis on longer maturity bonds were major contributors to performance as rates declined. Security selections also contributed, most notably in education and continuing care retirement centers.
- Security selection in certain other revenue bond sectors, including airports, detracted from performance.

Total return includes reinvestment of dividends and any capital gains paid, based upon net asset value per share or market price per share, as applicable. Past performance is no guarantee of future results. Market price per share, net asset value per share and investment return fluctuate.

Distribution rate per share is based upon dividends per share paid from net investment income during the period, divided by the market price per share at the end of the period, adjusted for any capital gain distributions.

³ Source: Lipper Inc. — The Bloomberg U.S. Municipal Bond Index covers the U.S. dollar denominated long term tax exempt bond market. Unlike a fund, the Index is not subject to fees and other expenses. Investors can not invest directly in any index.

FUND PERFORMANCE (Unaudited)

Cumulative Performance from October 1, 2014 through September 30, 2024 Initial Investment of \$10,000

* Source: Lipper Inc.

Past performance is not predictive of future performance.

The above graph compares a hypothetical investment of \$10,000 made in BNY Mellon Strategic Municipals, Inc. on 09/30/2014 to a hypothetical investment of \$10,000 made in the Index on that date. All figures for the fund are based on market price. All dividends and capital gain distributions are reinvested.

The fund invests primarily in municipal securities and its performance shown in the line graph takes into account fees and expenses. The Index covers the U.S. dollar-denominated long-term tax-exempt bond market. Unlike a fund, the Index is not subject to fees and other expenses. Investors cannot invest directly in any index. Further information relating to fund performance, including expense reimbursements, if applicable, is contained in the Financial Highlights within this report and elsewhere in this report.

FUND PERFORMANCE (Unaudited) (continued)

Average Annual Total Returns as of 9/30/2024							
	1 Year	5 Years	10 Years				
BNY Mellon Strategic Municipals, Inc. Fund- Market Price	26.86%	-0.87%	2.75%				
BNY Mellon Strategic Municipals, Inc. Fund- Net Asset Value	19.49%	1.05%	3.40%				
Bloomberg U.S. Municipal Bond Index	10.37%	1.39%	2.52%				

The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate and an investor's shares may be worth more or less than original cost upon sale of the shares. Current performance may be lower or higher than the performance quoted. Go to www.bny.com/investments for the fund's most recent month-end returns.

The fund's performance shown in the graph and table does not reflect the deduction of taxes that a shareholder would pay on fund distributions or the sale of fund shares.

DISTRIBUTION INFORMATION (Unaudited)

The following information regarding the fund's distributions is current as of September 30, 2024, the fund's fiscal year end. The fund's returns during the period were sufficient to meet fund distributions.

The fund's distribution policy is intended to provide shareholders with stable, but not guaranteed, cash flow, independent of the amount or timing of income earned or capital gains realized by the fund. The fund intends to distribute all or substantially all of its net investment income through its regular monthly distribution and to distribute realized capital gains at least annually. In addition, in any monthly period, in order to try to maintain a level distribution amount, the fund may pay out more or less than its net investment income during the period. As a result, distributions sources may include net investment income, realized gains and return of capital. You should not draw any conclusions about the fund's investment performance from the amount of the distribution or from the terms of the level distribution program. A return of capital is a non-taxable distribution of a portion of a fund's capital. A return of capital distribution does not necessarily reflect a fund's investment performance and should not be confused with "yield" or "income."

The amounts and sources of distributions reported below are for financial reporting purposes and are not being provided for tax reporting purposes. The actual amounts and character of the distributions for tax reporting purposes will be reported to shareholders on Form 1099-DIV, which will be sent to shareholders shortly after calendar year-end. Because distribution source estimates are updated throughout the current fiscal year based on the fund's performance, those estimates may differ from both the tax information reported to you in your fund's 1099 statement, as well as the ultimate economic sources of distributions over the life of your investment. The figures in the table below provide the sources of distributions and may include amounts attributed to realized gains and/or returns of capital.

- These securities have a put feature; the date shown represents the put date and the bond holder can take a specific action to retain the bond after the put date.
- Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2024, these securities were valued at \$263,637,235 or 58.37% of net assets.
- Non-income producing—security in default.
- ^d The Variable Rate is determined by the Remarketing Agent in its sole discretion based on prevailing market conditions and may, but need not, be established by reference to one or more financial indices.
- ^e Collateral for floating rate borrowings. The coupon rate given represents the current interest rate for the inverse floating rate security.
- f Security issued with a zero coupon. Income is recognized through the accretion of discount.
- E These securities are prerefunded; the date shown represents the prerefunded date. Bonds which are prerefunded are collateralized by U.S. Government securities which are held in escrow and are used to pay principal and interest on the municipal issue and to retire the bonds in full at the earliest refunding date.

FINANCIAL HIGHLIGHTS

The following table describes the performance for the fiscal periods indicated. Market price total return is calculated assuming an initial investment made at the market price at the beginning of the period, reinvestment of all dividends and distributions at market price during the period, and sale at the market price on the last day of the period.

NOTES TO FINANCIAL STATEMENTS

NOTE 1—Significant Accounting Policies:

BNY Mellon Strategic Municipals, Inc. (the "fund"), which is registered under the Investment Company Act of 1940, as amended (the "Act"), is a diversified closed-end management investment company. The fund's investment objective is to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital. BNY Mellon Investment Adviser, Inc. (the "Adviser"), a wholly-owned subsidiary of The Bank of New York Mellon Corporation ("BNY"), serves as the fund's investment adviser. Insight North America LLC (the "Sub-Adviser"), an indirect wholly-owned subsidiary of BNY and an affiliate of the Adviser, serves as the fund's sub-adviser. The fund's Common Stock trades on the New York Stock Exchange (the "NYSE") under the ticker symbol LEO.

The fund has outstanding 3,156 shares of Variable Rate MuniFund Term Preferred Shares ("VMTP Shares"). The fund is subject to certain restrictions relating to the VMTP Shares. Failure to comply with these restrictions could preclude the fund from declaring any distributions to shareholders of the fund's Common Stock ("Common Stockholders") or repurchasing shares of Common Stock and/or could trigger the mandatory redemption of VMTP Shares at their liquidation value (i.e., \$25,000 per share). Thus, redemptions of VMTP Shares may be deemed to be outside of the control of the fund.

The VMTP Shares have a mandatory redemption date of July 14, 2053, and are subject to an initial early redemption date of July 13, 2026, subject to the option of the shareholders to retain the VMTP Shares. VMTP Shares that are neither retained by the shareholder nor successfully remarketed by the early redemption date will be redeemed by the fund.

The shareholders of VMTP Shares, voting as a separate class, have the right to elect at least two directors. The shareholders of VMTP Shares will vote as a separate class on certain other matters, as required by law. The fund's Board of Directors (the "Board") has designated Robin A. Melvin and Benaree Pratt Wiley as directors to be elected by the holders of VMTP Shares.

Dividends on VMTP Shares are normally declared daily and paid monthly. The Dividend Rate on the VMTP Shares is, except as otherwise provided, equal to the rate per annum that results from the sum of (1) the Index Rate plus (2) the Applicable Spread as determined for the VMTP Shares on the Rate Determination Date immediately preceding such Subsequent Rate Period plus (3) the Failed Remarketing Spread (all defined terms as defined in the fund's articles supplementary).

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission ("SEC") under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund is an investment company and applies the accounting and reporting guidance of the FASB ASC Topic 946 Financial Services-Investment Companies. The fund's financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The fund enters into contracts that contain a variety of indemnifications. The fund's maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

Various inputs are used in determining the value of the fund's investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

Level 1—unadjusted quoted prices in active markets for identical investments.

Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—significant unobservable inputs (including the fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. Valuation techniques used to value the fund's investments are as follows:

The Board has designated the Adviser as the fund's valuation designee to make all fair value determinations with respect to the fund's portfolio investments, subject to the Board's oversight and pursuant to Rule 2a-5 under the Act.

Investments in municipal securities are valued each business day by an independent pricing service (the "Service") approved by the Board. Investments for which quoted bid prices are readily available and are representative of the bid side of the market in the judgment of the Service are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). Municipal investments (which constitute a majority of the portfolio securities) are carried at fair value as determined by the Service, based on methods which include consideration of the following: yields or prices of municipal securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. The Service is engaged under the general oversight of the Board. All of the preceding securities are generally categorized within Level 2 of the fair value hierarchy.

When market quotations or official closing prices are not readily available, or are determined not to accurately reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the fund calculates its net asset value, the fund may value these investments at fair value as determined in accordance with the procedures approved by the Board. Certain factors may be considered when fair valuing investments such as: fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that influence the market in which the securities are purchased and sold, and public trading in similar securities of the issuer or comparable issuers. These securities are either categorized within Level 2 or 3 of the fair value hierarchy depending on the relevant inputs used.

For securities where observable inputs are limited, assumptions about market activity and risk are used and such securities are generally categorized within Level 3 of the fair value hierarchy.

The following is a summary of the inputs used as of September 30, 2024 in valuing the fund's investments:

	Level 1- Unadjusted Quoted Prices	Level 2- Other Significant Observable Inputs	Level 3- Significant Unobservable Inputs	Total
Assets (\$)				
Investments in Sec	curities:†			
Municipal Securities	-	664,698,064	-	664,698,064
Liabilities (\$)				
Other Financial In	struments:			
Inverse Floater Notes ^{††} VMTP Shares ^{††}	-	(140,130,000) (78,900,000)	-	(140,130,000) (78,900,000)

[†] See Statement of Investments for additional detailed categorizations, if any.

- (b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the identified cost basis. Interest income, adjusted for accretion of discount and amortization of premium on investments, is earned from settlement date and recognized on the accrual basis. Securities purchased or sold on a when-issued or delayed delivery basis may be settled a month or more after the trade date.
- (c) Market Risk: The value of the securities in which the fund invests may be affected by political, regulatory, economic and social developments, and developments that impact specific economic sectors, industries or segments of the market. The value of a security may also decline due to general market conditions that are not specifically related to a particular company or industry, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates, changes to inflation, adverse changes to credit markets or adverse investor sentiment generally.

Additional Information section within this annual report provides more details about the fund's principal risk factors.

(d) Dividends and distributions to Common Stockholders: Dividends and distributions are recorded on the ex-dividend date. Dividends from net investment income are normally declared and paid monthly. Dividends from net realized capital gains, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to

[†] Certain of the fund's liabilities are held at carrying amount, which approximates fair value for financial reporting purposes.

comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"). To the extent that net realized capital gains can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gains. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

Common Stockholders will have their distributions reinvested in additional shares of the fund, unless such Common Stockholders elect to receive cash, at the lower of the market price or net asset value per share (but not less than 95% of the market price). If market price is equal to or exceeds net asset value, shares will be issued at net asset value. If net asset value exceeds market price, Computershare Inc., the transfer agent for the fund's Common Stock, will buy fund shares in the open market and reinvest those shares accordingly.

On September 27, 2024, the Board declared a cash dividend of \$.019 per share from net investment income, payable on October 31, 2024 to Common Stockholders of record as of the close of business on October 15, 2024. The ex-dividend date was October 15, 2024.

- **(e) Dividends to stockholders of VMTP Shares:** The Dividend Rate on the VMTP Shares is, except as otherwise provided, equal to the rate per annum that results from the sum of (1) the Index Rate plus (2) the Applicable Spread as determined for the VMTP Shares on the Rate Determination Date immediately preceding such Subsequent Rate Period plus (3) the Failed Remarketing Spread. The Applicable Rate of the VMTP Shares was equal to the sum of 1.05% per annum plus the Securities Industry and Financial Markets Association Municipal Swap Index rate of 3.15% on September 30, 2024. The dividend rate as of September 30, 2024 for the VMTP Shares was 4.20% (all terms as defined in the fund's articles supplementary).
- **(f) Federal income taxes:** It is the policy of the fund to continue to qualify as a regulated investment company, which can distribute tax-exempt dividends, by complying with the applicable provisions of the Code, and to make distributions of income and net realized capital gain sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended September 30, 2024, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period ended September 30, 2024, the fund did not incur any interest or penalties.

NOTES TO FINANCIAL STATEMENTS (continued)

Each tax year in the four-year period ended September 30, 2024 remains subject to examination by the Internal Revenue Service and state taxing authorities.

At September 30, 2024, the components of accumulated earnings on a tax basis were as follows: undistributed tax-exempt income \$2,619,098, accumulated capital losses \$55,891,527 and unrealized appreciation \$13,073,050.

The fund is permitted to carry forward capital losses for an unlimited period. Furthermore, capital loss carryovers retain their character as either short-term or long-term capital losses.

The accumulated capital loss carryover is available for federal income tax purposes to be applied against future net realized capital gains, if any, realized subsequent to September 30, 2024. The fund has \$20,848,789 of short-term capital losses and \$35,042,738 of long-term capital losses which can be carried forward for an unlimited period.

The tax character of distributions paid to Common Stockholders during the fiscal years ended September 30, 2024 and September 30, 2023 were as follows: tax-exempt income \$14,202,315 and \$20,451,442, respectively.

(g) VMTP Shares: The fund's VMTP Shares aggregate liquidation preference is shown as a liability since they have a stated mandatory redemption date of July 14, 2053. Dividends paid on VMTP Shares are treated as interest expense and recorded on the accrual basis. Costs directly related to the issuance of the VMTP Shares are considered debt issuance costs which have been deferred and are being amortized into expense over 36 months from July 12, 2023.

During the period ended September 30, 2024, total interest expenses and amortized offering costs with respect to VMTP Shares amounted to \$3,664,994 inclusive of \$3,563,758 of interest expense and \$101,236 amortized deferred cost fees. These fees are included in VMTP Shares interest expense and amortization of offering costs in the Statement of Operations.

The average amount of borrowings outstanding for the VMTP Shares during the period ended September 30, 2024 was approximately \$78,900,000, with a related weighted average annualized interest rate of 4.52%.

NOTE 2—Management Fee, Sub-Advisory Fee and Other Transactions with Affiliates:

(a) Pursuant to a management agreement (the "Agreement") with the Adviser, the management fee is computed at the annual rate of .75% of the value of the fund's average weekly net assets (including net assets representing VMTP Shares outstanding) and is payable monthly. The Agreement provides for an expense reimbursement from the Adviser should the fund's aggregate expenses (excluding taxes, interest on borrowings, brokerage fees and extraordinary expenses) in any full fiscal year exceed the lesser of (1) the expense limitation of any state having jurisdiction over the fund or (2) 2% of the first \$10 million, 1½% of the next \$20 million and 1% of the excess over \$30 million of the average weekly value of the fund's net assets. During the period ended September 30, 2024, there was no expense reimbursement pursuant to the Agreement.

The Adviser has agreed, from October 1, 2023 through November 29, 2024, to waive receipt of a portion of the fund's management fee, in the amount of .10% of the value of the fund's average weekly net assets (including net assets representing VMTP Shares outstanding). The reduction in expenses, pursuant to the undertaking, amounted to \$508,225 during the period ended September 30, 2024.

Pursuant to a sub-investment advisory agreement between the Adviser and the Sub-Adviser, the Adviser pays the Sub-Adviser a monthly fee at an annual rate of .36% of the value of the fund's average weekly net assets (including net assets representing VMTP Shares outstanding).

(b) The fund has an arrangement with The Bank of New York Mellon (the "Custodian"), a subsidiary of BNY and an affiliate of the Adviser, whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset Custodian fees. For financial reporting purposes, the fund includes custody net earnings credits as an expense offset in the Statement of Operations.

The fund compensates the Custodian, under a custody agreement, for providing custodial services for the fund. These fees are determined based on net assets, geographic region and transaction activity. During the period ended September 30, 2024, the fund was charged \$12,689 pursuant to the custody agreement. These fees were offset by earnings credits of \$12,689.

The fund compensates The Bank of New York Mellon under a Redemption and Paying Agent Agreement for providing certain transfer agency and payment services with respect to the VMTP Shares. During the period ended September 30, 2024, the fund was charged \$10,000 for the

services provided by the Redemption and Paying Agent (the "Redemption and Payment Agent").

During the period ended September 30, 2024, the fund was charged \$12,410 for services performed by the fund's Chief Compliance Officer and his staff. These fees are included in Chief Compliance Officer fees in the Statement of Operations.

The components of "Due to BNY Mellon Investment Adviser, Inc. and affiliates" in the Statement of Assets and Liabilities consist of: Management fee of \$323,909, Custodian fees of \$2,442, Chief Compliance Officer fees of \$2,561 and the Redemption and Paying Agent fees of \$2,500, which are offset against an expense reimbursement currently in effect in the amount of \$43,206.

(c) Each board member of the fund also serves as a board member of other funds in the BNY Mellon Family of Funds complex. Annual retainer fees and meeting attendance fees are allocated to each fund based on net assets.

NOTE 3—Securities Transactions:

The aggregate amount of purchases and sales (including paydowns) of investment securities, excluding short-term securities, during the period ended September 30, 2024, amounted to \$148,181,701 and \$144,922,609, respectively.

Inverse Floater Securities: The fund participates in secondary inverse floater structures in which fixed-rate, tax-exempt municipal bonds are transferred to a trust (the "Inverse Floater Trust"). The Inverse Floater Trust typically issues two variable rate securities that are collateralized by the cash flows of the fixed-rate, tax-exempt municipal bonds. One of these variable rate securities pays interest based on a short-term floating rate set by a remarketing agent at predetermined intervals ("Trust Certificates"). A residual interest tax-exempt security is also created by the Inverse Floater Trust, which is transferred to the fund, and is paid interest based on the remaining cash flows of the Inverse Floater Trust, after payment of interest on the other securities and various expenses of the Inverse Floater Trust. An Inverse Floater Trust may be collapsed without the consent of the fund due to certain termination events such as bankruptcy, default or other credit event.

The fund accounts for the transfer of bonds to the Inverse Floater Trust as secured borrowings, with the securities transferred remaining in the fund's investments, and the Trust Certificates reflected as fund liabilities in the Statement of Assets and Liabilities.

The fund may invest in inverse floater securities on either a non-recourse or recourse basis. These securities are typically supported by a liquidity facility provided by a bank or other financial institution (the "Liquidity Provider") that allows the holders of the Trust Certificates to tender their certificates in exchange for payment from the Liquidity Provider of par plus accrued interest on any business day prior to a termination event. When the fund invests in inverse floater securities on a non-recourse basis. the Liquidity Provider is required to make a payment under the liquidity facility due to a termination event to the holders of the Trust Certificates. When this occurs, the Liquidity Provider typically liquidates all or a portion of the municipal securities held in the Inverse Floater Trust. A liquidation shortfall occurs if the Trust Certificates exceed the proceeds of the sale of the bonds in the Inverse Floater Trust ("Liquidation Shortfall"). When a fund invests in inverse floater securities on a recourse basis, the fund typically enters into a reimbursement agreement with the Liquidity Provider where the fund is required to repay the Liquidity Provider the amount of any Liquidation Shortfall. As a result, a fund investing in a recourse inverse floater security bears the risk of loss with respect to any Liquidation Shortfall.

The average amount of borrowings outstanding under the inverse floater structure during the period ended September 30, 2024 was approximately \$122,609,594 with a related weighted average annualized interest rate of 3.98%.

At September 30, 2024, the cost of investments for federal income tax purposes was \$511,495,014; accordingly, accumulated net unrealized appreciation on investments was \$13,073,050, consisting of \$27,658,058 gross unrealized appreciation and \$14,585,008 gross unrealized depreciation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of BNY Mellon Strategic Municipals, Inc.

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of BNY Mellon Strategic Municipals, Inc. (the "Fund"), including the statement of investments, as of September 30, 2024, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund at September 30, 2024, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of September 30, 2024, by correspondence with the custodian, brokers and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more investment companies in the BNY Mellon Family of Funds since at least 1957, but we are unable to determine the specific year.

New York, New York November 22, 2024

ADDITIONAL INFORMATION (Unaudited)

Dividend Reinvestment and Cash Purchase Plan

Under the fund's Dividend Reinvestment and Cash Purchase Plan (the "Plan"), a holder of Common Stock who has fund shares registered in his name will have all dividends and distributions reinvested automatically by Computershare Trust Company, N.A., as Plan administrator (the "Administrator"), in additional shares of the fund at the lower of prevailing market price or net asset value (but not less than 95% of market value at the time of valuation) unless such shareholder elects to receive cash as provided below. If market price is equal to or exceeds net asset value, shares will be issued at net asset value. If net asset value exceeds market price or if a cash dividend only is declared, the Administrator, as agent for the Plan participants, will buy fund shares in the open market. A Plan participant is not relieved of any income tax that may be payable on such dividends or distributions.

A Common Stockholder who owns fund shares registered in nominee name through his broker/dealer (i.e., in "street name") may not participate in the Plan, but may elect to have cash dividends and distributions reinvested by his broker/dealer in additional shares of the fund if such service is provided by the broker/dealer; otherwise such dividends and distributions will be treated like any other cash dividend.

A Common Stockholder who has fund shares registered in his or her name may elect to withdraw from the Plan at any time for a \$2.50 fee and thereby elect to receive cash in lieu of shares of the fund. Changes in elections must be in writing, sent to The Bank of New York Mellon, c/o Computershare Inc., P.O. Box 30170, College Station, TX 77842-3170, should include the Common Stockholder's name and address as they appear on the Administrator's records and will be effective only if received more than fifteen days prior to the record date for any distribution.

A Plan participant who has fund shares in his name has the option of making additional cash payments to the Administrator, semi-annually, in any amount from \$1,000 to \$10,000, for investment in the fund's shares in the open market on or about January 15 and July 15. Any voluntary cash payments received more than 30 days prior to these dates will be returned by the Administrator, and interest will not be paid on any uninvested cash payments. A participant may withdraw a voluntary cash payment by written notice, if the notice is received by the Administrator not less than 48 hours before the payment is to be invested. A Common Stockholder who owns fund shares registered in street name should consult his broker/dealer to determine whether an additional cash purchase option is available through his broker/dealer.

The Administrator maintains all Common Stockholder accounts in the Plan and furnishes written confirmations of all transactions in the account. Shares in the account of each Plan participant will be held by the Administrator in non-certificated form in the name of the participant, and each such participant's proxy will include those shares purchased pursuant to the Plan. The fund pays the Administrator's fee for reinvestment of dividends and distributions. Plan participants pay a pro rata share of brokerage commissions incurred with respect to the Administrator's open market purchases and purchases from voluntary cash payments, and a \$1.25 fee for each purchase made from a voluntary cash payment.

The fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to notice of the change sent to Plan participants at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by the Administrator on at least 90 days' written notice to Plan participants.

Level Distribution Policy

The fund's dividend policy is to distribute substantially all of its net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more consistent yield to the current trading price of shares of Common Stock of the fund, the fund may at times pay out more or less than the entire amount of net investment income earned in any particular month and may at times in any month pay out any accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by the fund for any particular month may be more or less than the amount of net investment income earned by the fund during such month.

Investment Objective and Principal Investment Strategies

<u>Investment Objective</u>. The fund's investment objective is to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital. The fund's investment objective is fundamental and may not be changed without the affirmative vote of the holders of a majority (as defined in the Act) of the fund's outstanding voting securities. No assurance can be given that the fund will achieve its investment objective.

<u>Fundamental Investment Policy</u>. The fund has adopted a fundamental investment policy to invest, under normal market conditions, at least 80% of its net assets in municipal obligations, the income from which is exempt from federal personal income tax. As with the fund's investment objective, this investment policy may not be changed without the affirmative vote of the holders of a majority (as defined in the Act) of the fund's outstanding voting securities.

Municipal obligations are debt obligations issued by states, territories and possessions of the United States and the District of Columbia and their political subdivisions, agencies and instrumentalities, or multi-state agencies or authorities, that provide income exempt from federal income tax. Municipal obligations are classified as general obligation bonds, revenue bonds and notes. General obligation bonds are secured by the issuer's pledge of its faith, credit and taxing power for the payment of principal and interest. Revenue bonds are payable from the revenue derived from a particular facility or class of facilities or, in some cases, from the proceeds of a special excise or other specific revenue source, but not from the general taxing power. Notes are short term instruments which are obligations of the issuing municipalities or agencies and are sold in anticipation of a bond sale, collection of taxes or receipt of other revenues. The fund may purchase floating and variable rate obligations, municipal derivatives, such as custodial receipt programs created by financial intermediaries, tender option bonds and participations in municipal obligations.

Non-Fundamental Investment Policies. Under normal market conditions, the fund invests at least 50% of its net assets in municipal obligations considered investment grade by Moody's, S&P or Fitch or the unrated equivalent as determined by the Sub-Adviser in the case of bonds, and in the two highest rating categories of Moody's, S&P or Fitch or the unrated equivalent as determined by the Sub-Adviser in the case of short term obligations having or deemed to have maturities of less than one year. Investment grade bonds are those rated in the four highest rating categories of Moody's, S&P or Fitch. The fund may invest the remainder of its assets in municipal obligations considered below investment grade by Moody's, S&P and Fitch, including those rated no lower than C, but it currently is the intention of the fund to invest such remainder of its assets primarily in bonds rated no lower than Ba by Moody's and BB by S&P and Fitch. Bonds rated below investment grade and short term obligations rated below the two highest rating categories of Moody's, S&P and Fitch will be purchased only if the Sub-Adviser determines that the purchase is consistent with the fund's investment objective. The fund's ability to invest in lower rated municipal obligations may be limited as a condition to S&P's "AAA" rating of the fund's VMTP Shares.

From time to time, the fund may invest more than 25% of the value of its total assets in industrial development bonds which, although issued by industrial development authorities, may be backed only by the assets and revenues of the non-governmental users. Interest on certain municipal obligations (including certain industrial development bonds) which are specific private activity bonds, while exempt from federal income tax, is a preference item for the purpose of the federal alternative minimum tax. If the fund, as a regulated investment company, receives such interest, a

ADDITIONAL INFORMATION (Unaudited) (continued)

proportionate share of any exempt-interest dividend paid by the fund will be treated as a preference item to an investor. The fund may invest without limitation in such municipal obligations if the Sub-Adviser determines that their purchase is consistent with the fund's investment objective.

Under normal market conditions, the weighted average maturity of the fund's portfolio is expected to exceed ten years.

<u>Taxable Investments and other Investment Techniques</u>. The fund may employ, among others, the investment techniques described below. Use of certain of these techniques may give rise to taxable income.

Temporary Investments. From time to time, on a temporary basis other than for temporary defensive purposes (but not to exceed 20% of the fund's net assets) or for temporary defensive purposes without limitation, the fund may invest in taxable short term investments ("Taxable Investments") consisting of: notes of issuers having, at the time of purchase, a quality rating within the two highest grades of Moody's, S&P or Fitch; obligations of the U.S. Government, its agencies or instrumentalities; commercial paper rated at least P-2 by Moody's or at least A-2 by S&P or Fitch; certificates of deposit of U.S. domestic banks, including foreign branches of domestic banks, with assets of \$1 billion or more; bankers' acceptances; time deposits; and repurchase agreements in respect of any of the foregoing. Dividends paid by the fund that are attributable to interest earned from Taxable Investments will be taxable to investors. Under normal market conditions, the fund anticipates that not more than 5% of its total assets will be invested in any of the foregoing categories of Taxable Investments.

When-Issued Securities. New issues of municipal obligations usually are offered on a when-issued basis, which means that delivery and payment for such municipal obligations normally take place within 35 days after the date of the commitment to purchase. The payment obligation and the interest rate that will be received on the municipal obligations are fixed at the time the buyer enters into the commitment. The fund will make commitments to purchase such municipal obligations only with the intention of actually acquiring the securities, but the fund may sell these securities before the settlement date if it is deemed advisable, although any gain realized on such sale would be taxable. The fund will not accrue income with respect to a when-issued security before its stated delivery date. No additional when-issued commitments will be made if more than 20% of the fund's net assets would be so committed.

Stand-By Commitments. The fund may acquire "stand-by commitments" with respect to municipal obligations held in its portfolio. Under a stand-by commitment the fund obligates a broker, dealer or bank to repurchase, at the fund's option, specified securities at a specified price and, in this

respect, stand-by commitments are comparable to put options. The exercise of a stand-by commitment, therefore, is subject to the ability of the seller to make payment on demand. The fund will acquire stand-by commitments solely to facilitate portfolio liquidity and does not intend to exercise its rights thereunder for trading purposes. The fund anticipates that stand-by commitments will be available from brokers, dealers and banks without the payment of any direct or indirect consideration. The fund may pay for stand-by commitments if such action is deemed necessary, thus increasing to a degree the cost of the underlying municipal obligation and similarly decreasing such security's yield to investors.

Inverse Floating Rate Securities. The fund may invest in residual interest municipal obligations whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index ("inverse floaters"). An investment in inverse floaters may involve greater risk than an investment in a fixed-rate bond. Because changes in the interest rate on the other security or index inversely affect the residual interest paid on the inverse floater, the value of an inverse floater is generally more volatile than that of a fixed-rate bond. Inverse floaters have interest rate adjustment formulas which generally reduce or, in the extreme, eliminate the interest paid to the fund when short term interest rates rise, and increase the interest paid to the fund when short term interest rates fall. Inverse floaters have varying degrees of liquidity, and the market for these securities is relatively volatile. These securities tend to underperform the market for fixed-rate bonds in a rising interest rate environment, but tend to outperform the market for fixed-rate bonds when interest rates decline. Shifts in long term interest rates may, however, alter this tendency. Although volatile, inverse floaters typically offer the potential for yields exceeding the yields available on fixed-rate bonds with comparable credit quality, coupon, call provisions and maturity. These securities usually permit the investor to convert the floating-rate to a fixed-rate (normally adjusted downward), and this optional conversion feature may provide a partial hedge against rising rates if exercised at an opportune time.

<u>Use of Leverage</u>. The fund utilizes leverage to seek to enhance the yield and net asset value of its Common Stock. These objectives cannot be achieved in all interest rate environments. To leverage, the fund issued VMTP Shares and issues floating rate certificate securities, which pay dividends or interest at prevailing short-term interest rates, and invests the proceeds in long-term municipal bonds. The interest earned on these investments is paid to Common Stockholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share net asset value of the fund's Common Stock. In order for either of these forms of leverage to benefit Common Stockholders, the yield curve must be positively sloped: that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining

interest rates will benefit Common Stockholders. When either of these conditions change along with other factors that may have an effect on VMTP Shares dividends or floating rate certificate securities, then the risk of leveraging will begin to outweigh the benefits.

Principal Risk Factors

The fund is a diversified, closed-end management investment company designed primarily as a long-term investment and not as a short-term trading vehicle. The fund is not intended to be a complete investment program and, due to the uncertainty inherent in all investments, there can be no assurance that the fund will achieve its investment objective. Different risks may be more significant at different times depending on market conditions.

Municipal Obligations Risk. The amount of public information available about municipal obligations is generally less than that for corporate equities or bonds. Special factors, such as legislative changes, and state and local economic and business developments, may adversely affect the yield and/or value of the fund's investments in municipal obligations. Other factors include the general conditions of the municipal obligations market. the size of the particular offering, and the maturity of the obligation and the rating of the issue. The municipal obligations market can be susceptible to increases in volatility and decreases in liquidity. Liquidity can decline unpredictably in response to overall economic conditions or credit tightening. Increases in volatility and decreases in liquidity may be caused by a rise in interest rates (or the expectation of a rise in interest rates). During periods of reduced market liquidity, the fund may not be able to readily sell municipal obligations at prices at or near their perceived value. Changes in economic, business or political conditions relating to a particular municipal project, municipality, or state, territory or possession of the United States in which the fund invests may have an impact on the fund's net asset value per share of Common Stock. A credit rating downgrade relating to, default by, or insolvency or bankruptcy of, one or several municipal security issuers of a state, territory or possession of the United States in which the fund invests could affect the market values and marketability of many or all municipal securities of such state, territory or possession.

In addition, the fund may invest up to 50% of its net assets in below investment grade municipal obligations. Below investment grade municipal obligations (commonly referred to as "high yield" or "junk" bonds) involve substantial risk of loss and are considered predominantly speculative with respect to the issuer's or obligor's ability to pay interest and repay principal and are susceptible to default or decline in market value due to adverse economic and business developments. The market values

for high yield municipal obligations tend to be very volatile, and those bonds are less liquid than investment grade municipal obligations.

Because there is no established retail secondary market for many of these municipal obligations, it may be anticipated that such obligations could be sold only to a limited number of dealers or institutional investors. To the extent a secondary trading market for these obligations does exist, it generally is not as liquid as the secondary market for higher-rated municipal obligations. The lack of a liquid secondary market may have an adverse impact on market price and yield and the fund's ability to dispose of particular issues in response to a specific economic event such as a deterioration in the creditworthiness of the issuer. The lack of a liquid secondary market for certain municipal obligations also may make it more difficult for the fund to obtain accurate market quotations for purposes of valuing the fund's portfolio and calculating its net asset value. In such cases, the Sub-Adviser's judgment may play a greater role in valuation because less reliable, objective data may be available.

Call Risk. Some municipal obligations give the issuer the option to "call," or prepay, the securities before their maturity date. If interest rates fall, it is possible that issuers of callable bonds with high interest coupons will call their bonds. If a call were exercised by the issuer of a bond held by the fund during a period of declining interest rates, the fund is likely to replace such called bond with a lower yielding bond. If that were to happen, it could decrease the fund's distributions and possibly could affect the market price of the Common Stock. Similar risks exist when the fund invests the proceeds from matured, traded or prepaid bonds at market interest rates that are below the fund's current earnings rate. A decline in income could affect the market price or overall return of the Common Stock. During periods of market illiquidity or rising interest rates, prices of "callable" issues are subject to increased price fluctuation.

Credit Risk. Credit risk is the risk that one or more municipal bonds in the fund's portfolio will decline in price, or the issuer or obligor thereof will fail to pay interest or repay principal when due, because the issuer or obligor experiences a decline or there is a perception of a decline in its financial status. Below investment grade municipal obligations involve greater credit risk than investment grade municipal obligations. In addition, sizable investments by the fund in revenue obligations could involve an increased risk to the fund should any of the related facilities experience financial difficulties.

Interest Rate Risk. Prices of municipal obligations and other fixed-income securities tend to move inversely with changes in interest rates. Typically, a rise in rates will adversely affect fixed-income securities and, accordingly, will cause the value of the fund's investments in these securities to decline. A wide variety of market factors can cause interest rates to rise, including

central bank monetary policy, rising inflation and changes in general economic conditions. It is difficult to predict the pace at which central banks or monetary authorities may increase (or decrease) interest rates or the timing, frequency, or magnitude of such changes. During periods of very low interest rates, which occur from time to time due to market forces or actions of governments and/or their central banks, including the Board of Governors of the Federal Reserve System in the U.S., the fund may be subject to a greater risk of principal decline from rising interest rates. When interest rates fall, the values of already-issued fixed-income securities generally rise. However, when interest rates fall, the fund's investments in new securities may be at lower yields and may reduce the fund's income. Changing interest rates may have unpredictable effects on markets, may result in heightened market volatility and may detract from fund performance. The magnitude of these fluctuations in the market price of fixed-income securities is generally greater for securities with longer effective maturities and durations because such instruments do not mature, reset interest rates or become callable for longer periods of time. The change in the value of a fixed-income security or portfolio can be approximated by multiplying its duration by a change in interest rates. For example, the market price of a fixed-income security with a duration of three years would be expected to decline 3% if interest rates rose 1%. Conversely, the market price of the same security would be expected to increase 3% if interest rates fell 1%.

Tax Risk. To be tax-exempt, municipal obligations generally must meet certain regulatory requirements. Although the fund will invest in municipal obligations that pay income that is exempt, in the opinion of counsel to the issuer (or on the basis of other authority believed by the Adviser to be reliable), from regular federal income tax, if any such municipal obligation fails to meet these regulatory requirements, the income received by the fund from its investment in such obligations and distributed by the fund to Common Stockholders will be taxable. Changes or proposed changes in federal tax laws may cause the prices of municipal obligations to fall. In addition, the federal income tax treatment of payments in respect of certain derivatives contracts is unclear. Common Stockholders may receive distributions that are attributable to derivatives contracts that are treated as ordinary income for federal income tax purposes.

Liquidity Risk. When there is little or no active trading market for specific types of securities, it can become more difficult to sell the securities in a timely manner at or near their perceived value. In such a market, the value of such securities and the fund's net asset value per share of Common Stock may fall dramatically, even during periods of declining interest rates. Other market developments can adversely affect fixed-income securities markets. Regulations and business practices, for example, have led some financial intermediaries to curtail their capacity to engage in trading (i.e.,

"market making") activities for certain fixed-income securities, which could have the potential to decrease liquidity and increase volatility in the fixed-income securities markets. The secondary market for certain municipal obligations tends to be less well developed or liquid than many other securities markets, which may adversely affect the fund's ability to sell such municipal obligations at attractive prices. Investments that are illiquid or that trade in lower volumes may be more difficult to value. Liquidity can decline unpredictably in response to overall economic conditions or credit tightening. Increases in volatility and decreases in liquidity may be caused by a rise in interest rates (or the expectation of a rise in interest rates).

When-Issued Securities Risk. When purchasing a security on a forward commitment basis, the fund assumes the rights and risks of ownership of the security, including the risk of price and yield fluctuations. Because the fund is not required to pay for these securities until the delivery date, these risks are in addition to the risks associated with the fund's other investments. Securities purchased on a forward commitment, when-issued or delayed-delivery basis are subject to changes in value (generally appreciating when interest rates decline and depreciating when interest rates rise) based upon the public's perception of the creditworthiness of the issuer and changes, real or anticipated, in the level of interest rates. Securities purchased on a forward commitment, when-issued or delayed-delivery basis may expose the fund to risks because they may experience such fluctuations prior to their actual delivery.

Leverage Risk. Leverage is a speculative technique and there are special risks and costs associated with leveraging. There is no assurance that the fund's leveraging strategy will be successful. Leverage involves risks and special considerations for Common Stockholders, including: the likelihood of greater volatility of net asset value, market price and dividend rate of Common Stock than a comparable portfolio without leverage; the risk that fluctuations in the interest or dividend rates that the fund must pay on any leverage will reduce the return to Common Stockholders; the effect of leverage in a declining market, which is likely to cause a greater decline in the net asset value of Common Stock than if the fund were not leveraged, which may result in a greater decline in the market price of Common Stock.

Market Risk. The value of the securities in which the fund invests may be affected by political, regulatory, economic and social developments, and developments that impact specific economic sectors, industries or segments of the market. In addition, turbulence in financial markets and reduced liquidity in equity, credit and/or fixed income markets may negatively affect many issuers, which could adversely affect the fund. Global economies and financial markets are becoming increasingly

ADDITIONAL INFORMATION (Unaudited) (continued)

interconnected, and conditions and events in one country, region or financial market may adversely impact issuers in a different country, region or financial market. These risks may be magnified if certain events or developments adversely interrupt the global supply chain; in these and other circumstances, such risks might affect companies worldwide.

Risk of Market Price Discount from Net Asset Value. Shares of closed-end funds frequently trade at a market price that is below their net asset value. This is commonly referred to as "trading at a discount." This characteristic of shares of closed-end funds is a risk separate and distinct from the risk that the fund's net asset value may decrease.

Whether Common Stockholders will realize a gain or loss upon the sale of Common Stock will depend upon whether the market value of Common Stock at the time of sale is above or below the price the Common Stockholder paid, taking into account transaction costs, for Common Stock and is not directly dependent upon the fund's net asset value. Because the market value of Common Stock will be determined by factors such as the relative demand for and supply of Common Stock in the market, general market conditions and other factors beyond the control of the fund, the fund cannot predict whether its Common Stock will trade at, below or above net asset value, or below or above the initial offering price for such Common Stock.

Management Risk. The fund is subject to management risk because the Sub-Adviser actively manages the fund. The Sub-Adviser and the fund's portfolio managers will apply investment techniques and risk analyses in making investment decisions for the fund, but there can be no guarantee that these will produce the desired results.

Cybersecurity Risk. The fund and its service providers are susceptible to operational and information security risks due to cybersecurity incidents. In general, cybersecurity incidents can result from deliberate attacks or unintentional events. Cybersecurity attacks include, but are not limited to, gaining unauthorized access to digital systems (e.g., through "hacking" or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data or causing operational disruption. Cyber attacks also may be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make services unavailable to intended users). Cybersecurity incidents affecting the Adviser or Sub-Adviser or other service providers, as well as financial intermediaries, have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, including by interference with the fund's ability to calculate its net asset value; impediments to trading for the fund's portfolio; the inability of Common Stockholders to transact business with the fund; violations of applicable privacy, data security or other laws; regulatory fines

and penalties; reputational damage; reimbursement or other compensation or remediation costs; legal fees; or additional compliance costs. Similar adverse consequences could result from cybersecurity incidents affecting issuers of securities in which the fund invests, counterparties with which the fund engages in transactions, governmental and other regulatory authorities, exchange and other financial market operators, banks, brokers, dealers, insurance companies and other financial institutions and other parties. While information risk management systems and business continuity plans have been developed which are designed to reduce the risks associated with cybersecurity, there are inherent limitations in any cybersecurity risk management systems or business continuity plans, including the possibility that certain risks have not been identified.

Given the risks described above, an investment in Common Stock may not be appropriate for all investors. You should carefully consider your ability to assume these risks before making an investment in the fund.

Recent Changes

During the period ended September 30, 2024, there were: (i) no material changes in the fund's investment objectives or policies that have not been approved by shareholders, (ii) no changes in the fund's charter or by-laws that would delay or prevent a change of control of the fund that have not been approved by shareholders, (iii) no material changes to the principal risk factors associated with investment in the fund, and (iv) no change in the persons primarily responsible for the day-to-day management of the fund's portfolio.

IMPORTANT TAX INFORMATION (Unaudited)

In accordance with federal tax law, the fund hereby reports all the dividends paid from net investment income during its fiscal year ended September 30, 2024 as "exemptinterest dividends" (not generally subject to regular Federal income tax). Where required by federal tax law rules, shareholders will receive notification of their portion of the fund's taxable ordinary dividends (if any), capital gains distributions (if any) and taxexempt dividends paid for the 2024 calendar year on Form 1099-DIV, which will be mailed in early 2025.

PROXY RESULTS (Unaudited)

Common Stockholders and holders of VMTP Shares voted together as a single class (except as noted below) on the following proposals presented at the annual meeting of stockholders held on June 12, 2024.

		Shares
	For	Authority Withheld
To elect one Class I Director†:		
Benaree Pratt Wiley ^{††}	3,156	-
To elect two Class III Directors ^{†††} :		
Joan L. Gulley	46,864,232	3,522,729
Burton N. Wallack	45,985,243	4,401,718

[†] The term of the Class I Directors expires in 2025.

[#] Elected solely by holders of VMTP Shares; Common Stockholders not entitled to vote. ## The term of the Class III Directors expires in 2027.

BOARD MEMBERS INFORMATION (Unaudited)

Independent Board Members

Joseph S. DiMartino (80) Chairman of the Board (1995)

Current term expires in 2025.

Principal Occupation During Past 5 Years:

 Director or Trustee of funds in the BNY Mellon Family of Funds and certain other entities (1995-Present)

Other Public Company Board Memberships During Past 5 Years:

 CBIZ, Inc., a public company providing professional business services, products and solutions, Director (1997-May 2023)

No. of Portfolios for which Board Member Serves: 80

Joan Gulley (76) Board Member (2017)

Current term expires in 2027.

Principal Occupation During Past 5 Years:

- Nantucket Atheneum, public library, Chair (June 2018-June 2021) and Director (2015-June 2021)
- Orchard Island Club, golf and beach club, Governor (2016-Present) and President (February 2023-Present)

No. of Portfolios for which Board Member Serves: 40

Alan H. Howard (65) Board Member (2018)

Current term expires in 2026.

Principal Occupation During Past 5 Years:

- Heathcote Advisors LLC, a financial advisory services firm, Managing Partner (2008-Present)
- Dynatech/MPX Holdings LLC, a global supplier and service provider of military aircraft parts,
 President (2012-May 2019); and *Board Member* of its two operating subsidiaries, Dynatech
 International LLC and Military Parts Exchange LLC (2012-December 2019), including *Chief Executive Officer* of an operating subsidiary, Dynatech International LLC (2013-May 2019)
- Rossoff & Co., an independent investment banking firm, Senior Advisor (2013-June 2021)

Other Public Company Board Memberships During Past 5 Years:

- Movado Group, Inc., a public company that designs, sources, markets and distributes watches, Director (1997-Present)
- Diamond Offshore Drilling, Inc., a public company that provides contract drilling services, Director (March 2020-April 2021)

No. of Portfolios for which Board Member Serves: 12

Robin A. Melvin (60) Board Member (1995)

Current term expires in 2026.

Principal Occupation During Past 5 Years:

- Westover School, a private girls' boarding school in Middlebury, Connecticut, Trustee (2019-June 2023)
- Mentor Illinois, a non-profit organization dedicated to increasing the quantity and quality of mentoring services in Illinois. Co-Chair (2014–March 2020); Board Member (2013-March 2020)
- JDRF, a non-profit juvenile diabetes research foundation, Board Member (June 2021-June 2022)

Other Public Company Board Memberships During Past 5 Years:

- HPS Corporate Lending Fund, a closed-end management investment company regulated as a business development company, Trustee (August 2021-Present)
- HPS Corporate Capital Solutions Fund, a close-end management investment company regulated as a business development company, Trustee, (December 2023-Present)

No. of Portfolios for which Board Member Serves: 62

Burton N. Wallack (73) Board Member (2006)

Current term expires in 2027.

Principal Occupation During Past 5 Years:

Wallack Management Company, a real estate management company, President and Co-owner (1987-Present)

Other Public Company Board Memberships During Past 5 Years:

Mount Sinai Hospital Urology, Board Member (2017-Present)

No. of Portfolios for which Board Member Serves: 12

Benaree Pratt Wiley (78) Board Member (1989)

Current term expires in 2027.

Principal Occupation During Past 5 Years:

The Wiley Group, a firm specializing in strategy and business development. Principal (2005-Present)

Other Public Company Board Memberships During Past 5 Years:

- CBIZ, Inc., a public company providing professional business services, products and solutions, *Director* (2008-Present)
- Blue Cross-Blue Shield of Massachusetts, *Director* (2004-December 2020)

No. of Portfolios for which Board Member Serves: 52

BOARD MEMBERS INFORMATION (Unaudited) (continued)

Gordon J. Davis (83) Advisory Board Member (2021)

Principal Occupation During Past 5 Years:

• Venable LLP, a law firm, Partner (2012-Present)

Other Public Company Board Memberships During Past 5 Years:

• BNY Mellon Family of Funds (53 funds), Board Member (1995-August 2021)

No. of Portfolios for which Advisory Board Member Serves: 34

The address of the Board Members and Officers is c/o BNY Mellon Investment Adviser, Inc., 240 Greenwich Street, New York, New York 10286.

OFFICERS OF THE FUND (Unaudited)

DAVID DIPETRILLO, President since January 2021.

Vice President and Director of the Adviser since February 2021; Head of North America Distribution, BNY Investments since February 2023; and Head of North America Product, BNY Investments from January 2018 to February 2023. He is an officer of 51 investment companies (comprised of 93 portfolios) managed by the Adviser or an affiliate of the Adviser. He is 46 years old and has been an employee of BNY since 2005.

JAMES WINDELS, Treasurer since November 2001.

Director of the Adviser since February 2023; Vice President of the Adviser since September 2020; and Director–BNY Fund Administration. He is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. He is 66 years old and has been an employee of the Adviser since April 1985.

PETER M. SULLIVAN, Chief Legal Officer since July 2021 and Vice President and Assistant Secretary since March 2019.

Chief Legal Officer of the Adviser and Associate General Counsel of BNY since July 2021; Senior Managing Counsel of BNY from December 2020 to July 2021; and Managing Counsel of BNY from March 2009 to December 2020. He is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. He is 56 years old and has been an employee of BNY since April 2004.

SARAH S. KELLEHER, Secretary since April 2024 and Vice President since April 2014.

Vice President of BNY Mellon ETF Investment Adviser; LLC since February 2020; Senior Managing Counsel of BNY since September 2021; and Managing Counsel of BNY from December 2017 to September 2021. She is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. She is 48 years old and has been an employee of BNY since March 2013.

DEIRDRE CUNNANE, Vice President and Assistant Secretary since March 2019.

Managing Counsel of BNY since December 2021; and Counsel of BNY from August 2018 to December 2021. She is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. She is 34 years old and has been an employee of BNY since August 2013.

LISA M. KING, Vice President and Assistant Secretary since March 2024.

Counsel of BNY since June 2023; and Regulatory Administration Group Manager at BNY Mellon Asset Servicing from February 2016 to June 2023. She is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. She is 56 years old and has been an employee of BNY since February 2016.

JEFF PRUSNOFSKY, Vice President and Assistant Secretary since August 2005.

Senior Managing Counsel of BNY. He is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. He is 59 years old and has been an employee of the Adviser since October 1990.

AMANDA QUINN, Vice President and Assistant Secretary since March 2020.

Managing Counsel of BNY since March 2024 and Counsel of BNY from June 2019 to February 2024. She is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. She is 39 years old and has been an employee of BNY since June 2012.

DANIEL GOLDSTEIN, Vice President since March 2022.

Head of Product Development of North America Distribution, BNY Investments since January 2018; Executive Vice President of North America Product, BNY Investments since April 2023; and Senior Vice President, Development & Oversight of North America Product, BNY Investments from 2010 to March 2023. He is an officer of 51 investment companies (comprised of 93 portfolios) managed by the Adviser or an affiliate of the Adviser. He is 55 years old and has been an employee of BNY Mellon Securities Corporation since 1991.

JOSEPH MARTELLA, Vice President since March 2022.

Vice President of the Adviser since
December 2022; Head of Product
Management of North America Distribution,
BNY Investments since January 2018;
Executive Vice President of North America
Product, BNY Investments since April 2023;
and Senior Vice President of North America
Product, BNY Investments from 2010 to
March 2023. He is an officer of 51
investment companies (comprised of 93
portfolios) managed by the Adviser or an
affiliate of the Adviser. He is 47 years old and
has been an employee of BNY Mellon
Securities Corporation since 1999.

ROBERTO G. MAZZEO, Assistant Treasurer since June 2024.

Financial Reporting Manager - BNY Fund Administration. He is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. He is 44 years old and has been an employee of the Adviser since October 2006.

GAVIN C. REILLY, Assistant Treasurer since December 2005.

Tax Manager–BNY Fund Administration. He is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. He is 56 years old and has been an employee of the Adviser since April 1991.

ROBERT SALVIOLO, Assistant Treasurer since July 2007.

Senior Accounting Manager–BNY Fund Administration. He is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. He is 57 years old and has been an employee of the Adviser since June 1989.

ROBERT SVAGNA, Assistant Treasurer since December 2002.

Senior Accounting Manager–BNY Fund Administration. He is an officer of 52 investment companies (comprised of 110 portfolios) managed by the Adviser or an affiliate of the Adviser. He is 57 years old and has been an employee of the Adviser since November 1990.

JOSEPH W. CONNOLLY, Chief Compliance Officer since October 2004.

Chief Compliance Officer of the BNY Mellon Family of Funds and BNY Mellon Funds Trust since 2004; and Chief Compliance Officer of the Adviser from 2004 until June 2021. He is the Chief Compliance Officer of 51 investment companies (comprised of 97 portfolios) managed by the Adviser. He is 67 years old.
