**What were the Fund’s costs for the last year?**

(based on a hypothetical \$10,000 investment)

Share Class	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Class M*	\$95	0.88%

\* During the period, fees were waived and/or expenses reimbursed pursuant to an agreement with the Fund’s investment adviser, BNY Mellon Investment Adviser, Inc. If this agreement is not extended in the future, expenses could be higher.

- In comparison, the MSCI EAFE® Index returned 19.40% for the same period.

**What affected the Fund’s performance?**

- Despite geopolitical tensions, global markets performed well, supported by supportive economic fundamentals, including weakening inflation, improving consumer confidence and declining interest rates.
- Stock selections in consumer discretionary and health care detracted. Luxury goods companies declined on weakness in China while a drug company was hurt by litigation, strategic uncertainty and weak earnings.
- Security selections in information technology and materials contributed most positively. Positions in cybersecurity and semiconductor capital equipment performed well, and U.S. infrastructure projects benefited shares of a building materials company.
