What were the Fund’s costs for the last year?

(based on a hypothetical \$10,000 investment)

Share Class	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Class A	\$128	1.24%

How did the Fund perform last year?

- For the 12-month period ended November 30, 2024, the Fund’s Class A shares returned 7.00%.
- In comparison, the MSCI EAFE[®] Index (the “Index”) returned 11.88% for the same period.

What affected the Fund’s performance?

- International equity markets rose over the period, as ongoing economic resilience and a turn in the monetary cycle bolstered investor sentiment.
- The Fund’s sole emerging markets holding, Taiwan Semiconductor Manufacturing, contributed the most to returns relative to the Index.
- Technology and consumer discretionary holdings outperformed their counterparts in the Index and added significantly to relative performance.
- A combination of underweight exposure to the comparatively strong financials sector, along with disappointing stock selection in the sector, detracted the most from relative returns.
- Performance in the industrials sector detracted from relative returns due to security selection.

How did the Fund perform over the past 10 years?

The Fund's past performance is not a good predictor of the Fund's future performance. The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares.

**Cumulative Performance from December 1, 2014 through November 30, 2024
Initial Investment of \$10,000**

The above graph compares a hypothetical \$10,000 investment in the Fund's Class A shares to a hypothetical investment of \$10,000 made in the MSCI EAFE® Index on 11/30/2014. The performance shown takes into account the maximum initial sales charge on Class A shares and applicable fees and expenses of the Fund, including management fees and other expenses. The Fund's performance also assumes the reinvestment of dividends and capital gains. Unlike the Fund, the Index is not subject to charges, fees and other expenses. Investors cannot invest directly in any index.
