Dreyfus Treasury Securities Cash Management - Token-Enabled Shares

Fund Goal

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

by investing only in U.S. Treasury securities and cash. The fund is a government money market fund managed to meet the requirements of Rule 2A-7 under the Investment Company Act of 1940.

Investment Approach

To pursue its goal, the fund pursues its investment objective

¹As a measure of current income, 7-day yield more closely reflects the fund's current income-generating ability than the total return.

²The yields quoted reflect the current absorption of certain fund expenses by BNY Mellon Investment Adviser, Inc., without which yields would be "restated" as shown above.

³Portfolio composition is subject to change at any time.

⁴Please see the prospectus for expenses as of the fund's most recent fiscal year-end. Operating expenses may vary from month to month.

⁵Any order in proper form placed with BNY Mellon Investment Adviser, Inc. by the fund's trading deadline and for which federal funds are received by 6:00 PM ET will be effective on that date. Investors will earn the dividend declared on that day.

⁶Data reflects days until final maturity for individual portfolio securities.

⁷Maturity distribution reflects the final maturity date except for floating rate securities for which the next reset date is reflected.

⁸WAM is a measure of the average effective maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument. WAM calculations allow for the maturities of certain securities with periodic interest rate resets to be shortened. Generally, for money market funds, WAM can be used primarily as a measure of relative sensitivity to interest rate changes.

⁹WAL is a measure of the average final maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument. Unlike WAM, WAL calculations do not allow maturities to be shortened for periodic interest rate resets. Accordingly, WAL will generally be higher than WAM.

¹⁰Monthly yield history is the annualized distribution rate that is based upon dividends per share from net investment income paid during the period, divided by the period ended maximum offering price per share, adjusted for capital gains (IF ANY) distributed during the period, and annualized based upon the number of days in the distribution period.

Investors should consider the investment objectives, risks, charges, and expenses of a mutual fund carefully before investing. To obtain a prospectus, or summary prospectus, if available, that contains this and other information about the fund, contact your financial professional or visit dreyfus.com. Read the prospectus carefully before investing.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the Fund at any time, including during periods of market stress.

Although the Fund's board has no current intention to impose a fee upon the sale of shares, the board reserves the ability to do so after providing at least 60 days prior written notice to shareholders.

Dividends, if any, are payable pursuant to the fund's stated policy.

The fund's Token-Enabled shares are designed generally for institutional investors, acting for themselves or in a fiduciary, advisory, agency, brokerage, custodial or similar capacity. Token-Enabled shares of the fund also may be purchased directly by individuals. Investors are required to purchase Token-Enabled shares through The Bank of New York Mellon, an affiliate of BNY Mellon Investment Adviser, Inc. (BNYIA), on The Bank of New York Mellon's platform.

There are risks associated with shares maintained and recorded primarily on a blockchain. A "blockchain" is a type of digital database or ledger that facilitates the process of recording transactions and tracking assets in a business network. Unlike the currently implemented traditional books and records maintained by fund transfer agents, including the fund's transfer agent, a blockchain is a system that allows for the sharing of information across its network. Assets are represented on the blockchain through "tokens," which are a digital representation of an asset and are built into the blockchain.

*Fund ratings are statements of opinion, not statements of fact or recommendations to buy, sell or hold the shares of a fund and are subject to change. The portfolio's credit quality does not remove market risks. However, the funds are subject to ongoing surveillance and the rating agencies may revise the fund rating or outlook at any time. Standard & Poor's (S&P) believes that, with a Principal Stability Rating of AAAm, the fund has an extremely strong capacity to maintain principal and stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks. For more information on rating methodology, visit www.standardandpoors.com. Moody's Investors Service rates money market mutual funds 'Aaa-mf' if, in Moody's opinion, a fund has a very strong ability to meet the dual objectives of providing liquidity and preserving capital. This rating, which is derived from a combination of Moody's assessment of a fund's Portfolio Credit Profile, Portfolio Stability Profile, and other qualitative factors, is not intended to consider prospective performance of a fund. For more information on rating methodology, visit www.moody.com. Rating agencies may revise or withdraw their ratings at any time, and ratings are not intended to guarantee a fund's performance, nor are they intended to signal the appropriateness of an investment.

The information being provided is general information about our firm and its products and services. It should not be construed as investment advice or a recommendation with respect to any product or service and should not serve as a primary basis for investment decisions. Please consult a legal, tax or financial professional in order to determine whether an investment product or service is appropriate for a particular situation.

BNY Investments Dreyfus (Dreyfus) is a division of Mellon Investments Corporation (MIC), a registered investment adviser and subsidiary of The Bank of New York Mellon Corporation (BNY). Securities are offered by BNY Mellon Securities Corporation (BNYSC), a registered broker-dealer and affiliate of MIC. BNY Investments is the brand name for the investment management business of BNY and its investment firm affiliates worldwide. BNY is the corporate brand of The Bank of New York Mellon Corporation and may be used to reference the corporation as a whole or its various subsidiaries generally.
