

This form may be used by Keogh plan participants to request a one time distribution from the Keogh Plan. You (the plan participant) may request a distribution upon termination of employment, attainment of the Plan's Normal Retirement Age, disability, plan termination, or attainment of age 59½ for Keogh Profit Sharing Plans, or if you meet one of the Plan's in-service withdrawal provisions. This form may also be used by the Employer or Plan Administrator to indicate a distribution of plan assets pursuant to a Qualified Domestic Relations Order (QDRO). Plan participants, other than Employer-participants cannot direct QDRO payments.

To request a Required Minimum Distribution from a Keogh Plan, please complete the Required Minimum Distribution Request Form (for Qualified Keogh Plans only) found online at www.bnyfundsforms.com.

Form of Distribution:

If you are a married participant, a distribution from the Plan is made in the form of a Qualified Joint and Survivor Annuity unless your spouse waives the right to a survivor annuity by consenting to another form of payment.* If you are an unmarried participant, a distribution from the Plan is made in the form of a Single Life Annuity unless you elect an alternate form of distribution. If your Plan is subject to the Qualified Joint and Survivor Annuity requirements, the Employer is required to provide married participants with a notice explaining the required joint and survivor annuity form of benefit, and an election to waive the joint and survivor annuity form of distribution and choose an optional form of benefit payment, if applicable.

*Profit Sharing Plans may provide for alternative forms of payment. Consult your tax advisor for more information.

Tax Notice and Federal Income Tax Withholding:

The Employer must provide you with a Special Tax Notice Regarding Plan Payments. This notice explains the mandatory 20% Federal Income Tax withholding on distributions eligible to be rolled over and your options to continue to defer federal income tax on distributions. It also contains other important information you will need to decide how to receive your benefits.

The default federal withholding rate is 20% on eligible rollover distributions. You can choose a rate greater than 20% but you cannot choose a lower rate. Required Minimum Distributions and certain other distributions cannot be rolled over and are subject to a 10% default federal withholding rate unless you choose a different rate as applicable. Please read and complete Section 4 of this form regarding federal income tax withholding.

You are strongly advised to consult with your tax advisor regarding the tax implications associated with a distribution from the Plan.

Distribution Procedure:

When you have completed the form you should deliver it to the Employer for signature. We can only make distributions on the instruction of the Employer.

4 FEDERAL INCOME TAX WITHHOLDING

The default rate of federal withholding is 20% for eligible rollover distributions. You can choose a rate greater than 20% (between 20% and 100%) but you generally cannot choose a rate less than 20%. Required Minimum Distributions and certain other distributions are subject to a 10% default rate for federal income tax withholding. You generally can elect another federal withholding rate from 0% to 100%, but you cannot choose less than 10% if these distribution payments will be delivered outside of the United States.

You can review the enclosed IRS Form W-4R, Withholding Certificate for Nonperiodic Payments and Eligible Rollover Distributions, for further instructions and a rate table that helps you choose a rate that is appropriate for your tax situation. This form can also be found at www.irs.gov/pub/irs-prior/fw4r--2025.pdf. YOU DO NOT HAVE TO MAKE A SEPARATE ELECTION ON THE ATTACHED FORM W-4R, AND YOUR WITHHOLDING ELECTION MAY BE MADE ON THIS FORM ONLY. If you elect not to have withholding apply to your distribution, or if you do not have enough federal income tax withheld from your distribution, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient. If you do not elect out of withholding, by entering 0% on the line below, withholding will be based on the gross amount of your distribution even though a portion of your distribution may not be subject to tax (e.g., if you have made non-deductible contributions to your Plan).

4 FEDERAL INCOME TAX WITHHOLDING CONT.

Your withholding rate is determined by the type of payment you will receive.

- For nonperiodic payments that are not eligible for rollover, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% on the line below. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its possessions. See page 2 of the enclosed Form W-4R for more information.
- For an eligible rollover distribution, the default withholding rate is 20%. You can choose a rate greater than 20% by entering the rate on the line below. You may not choose a rate less than 20%.

See page 2 of the enclosed Form W-4R for more information.

FEDERAL INCOME TAX WITHHOLDING ELECTION

Complete this line if you would like a rate of withholding that is different from the default withholding rate. See the instructions on page 2 and the Marginal Rate Tables on page 1 of the enclosed Form W-4R for additional information. Enter the rate as a whole number (no decimals).

_____ %

5 STATE INCOME TAX WITHHOLDING ELECTION

Depending on your state of residency, state income tax withholding may be required from your distribution. If applicable, you may elect a withholding rate that is above your state's minimum withholding rate. Certain states may permit you to elect to not have withholding apply. If a minimum withholding rate is required by your state, the custodian will withhold applicable state taxes regardless of your election below. The custodian does not withhold state taxes for all states. To the extent permitted by applicable state law, an election to not have federal income tax withheld will also apply to state income taxes. To review the impact of state withholding for your state of residence, please speak to your tax consultant.

General Instructions (*continued*)

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments **unless** you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering “-0-” on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

Note: If you don’t give Form W-4R to your payer, you don’t provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can’t honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2025, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Eligible rollover distributions—20% withholding. Distributions you receive from qualified retirement plans (for example, 401(k) plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified plan are subject to a 20% default rate of withholding on the taxable amount of the distribution. You can’t choose withholding at a rate of less than 20% (including “-0-”). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don’t give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are **not** eligible rollover distributions for purposes of these withholding rules:

- Qualifying “hardship” distributions;
- Distributions required by federal law, such as required minimum distributions;
- Distributions from a pension-linked emergency savings account;
- Eligible distributions to a domestic abuse victim;
- Qualified disaster recovery distributions;
- Qualified birth or adoption distributions; and
- Emergency personal expense distributions.

See Pub. 505 for details. See also *Nonperiodic payments—10% withholding* above.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter “-0-” on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Line 1b

For an estate, enter the estate’s employer identification number (EIN) in the area reserved for “Social security number.”

Line 2

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including “-0-”) if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter “-0-”.

Suggestion for determining withholding. Consider using the Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

Examples. Assume the following facts for *Examples 1* and *2*. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be \$65,000 without the payment. Step 1: Because your total income without the payment, \$65,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$85,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Because these two rates are the same, enter “22” on line 2.

Example 2. You expect your total income to be \$61,000 without the payment. Step 1: Because your total income without the payment, \$61,000, is greater than \$26,925 but less than \$63,475, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$81,000, is

greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. The two rates differ. \$2,475 of the \$20,000 payment is in the lower bracket (\$63,475 less your total income of \$61,000 without the payment), and \$17,525 is in the higher bracket (\$20,000 less the \$2,475 that is in the lower bracket). Multiply \$2,475 by 12% to get \$297. Multiply \$17,525 by 22% to get \$3,856. The sum of these two amounts is \$4,153. This is the estimated tax on your payment. This amount corresponds to 21% of the \$20,000 payment (\$4,153 divided by \$20,000). Enter "21" on line 2.
