¹The funds outlined are not available to U.S. Persons (as described in the Prospectus) and may only be offered and sold in accordance with Regulation S under the U.S. Securities Act of 1933. ²Portfolio composition is subject to change at any time. ³Fund ratings are statements of opinion, not statements of fact or recommendations to buy, sell or hold the shares of a fund. All funds are formally assessed on annual basis. However, the funds are subject to ongoing surveillance and the rating agencies may revise the fund rating or outlook at any time. **Standard & Poor's (S&P)** believes that, with a Principal Stability Rating of AAAm, the fund has an extremely strong capacity to maintain principal and stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks. For more information on rating methodology visit www.standardandpoors.com. **Moody's Investors Service** rates money market mutual funds 'Aaa-mf' if, in Moody's opinion, a fund has a very strong ability to meet the dual objectives of providing liquidity and preserving capital. This rating, which is derived from a combination of Moody's assessment of a fund's Portfolio Credit Profile, Portfolio Stability Profile, and other qualitative factors, is not intended to consider prospective performance of a fund. For more information on rating methodology visit www.moody.com. Fitch's International Money Market Fund Rating of AAmmf denotes Fitch's opinion that the fund has an extremely strong capacity to achieve its investment management objective of preserving principal and providing shareholder liquidity through limiting credit, market, and liquidity risk. Fitch's rating does not opine on any quality other than the fund's ability to maintain a stable net asset value. For more information on rating methodology visit www.fitchratings.com. Rating agencies may revise or withdraw their ratings at any time, and ratings are not intended to guarantee a fund's performance nor are they intended to signal the suitability of an investment. An investment in a money market fund is not a guaranteed investment; it is different to an investment in deposits as the principal invested is capable of fluctuation. The Fund does not rely on external support for guaranteeing its ability to sell its assets and/or meet redemptions (liquidity) or stabilizing the fund's price per unit/share (Net Asset Value). There is a risk of loss of the principal invested, which is borne by the investor. The fund's prospectus includes important information about its principal investment strategy including, how the investment adviser assesses, how an environmental, social and governance ("ESG") event may materially or negatively impact the value of the fund's securities.

Investors must carefully consider the risks associated with the investments described herein, some of which include: i) investing in the sub-funds is not comparable to investing in a deposit account; ii) investments are subject to uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments are made or in which the BNY Mellon Liquidity Funds plc is incorporated; iii) the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investment may be made may not provide the same degree of investor protection of information to investors as would generally apply in major securities markets; iv) a sub-fund may use futures or options which can increase volatility and the risk of loss; v) the value of a sub-fund will fluctuate in accordance with the changes in the foreign exchange rate between the euro, the dollar, the sterling and the currencies in which the sub-fund's investments are denominated, therefore creating an exposure to currency risk; vi) value of a sub-fund may be affected by changes in interest rates and the creditworthiness of issuers of the sub-fund's investments; and vii) certain sub-funds may invest in lower-rated fixed income securities, and such securities carry a higher degree of default risk which may affect the value of an investment. The foregoing list of certain risk factors does not purport to be a complete enumeration or explanation of the risks involved in an investment in the fund described herein. In addition, as the investment markets and investment products develop and change over time, an investment may be subject to additional and different risk factors. No assurance can be made that profits will be achieved or that substantial losses will not be incurred. **Investors should read the Prospectus and/or KIID before deciding to invest.** These documents can be obtained from BNY Mellon Fund Management (Luxembourg) S.A. or from BNY Mellon Securities Corporation.
