SUMMARY

This Sub-Fund promotes environmental or social characteristics but does not have as its objective sustainable investment.

The Sub-Fund promotes a minimum environmental and/or social standard that seeks to mitigate or avoid practices that the Investment Manager deems environmentally and/or socially detrimental.

Exclusion criteria are used to achieve this minimum standard.

The Sub-Fund promotes environmental and/or social characteristics through the exclusion of issuers that derive a certain percentage of revenue, as determined by JP Morgan (JPM), from tobacco production, thermal coal mining, thermal coal power generation and oil sands extraction, controversial weapons production and civilian and non-civilian weapons manufacturing and distribution.

Issuers will also be excluded where, in the opinion of JPM, the issuers are deemed to have violated the minimum standards of business practices as defined by the principles of the UN Global Compact.

Furthermore, issuers with the lowest ESG score as determined by JPM will be excluded, except if the bond is a green bond as labelled by the Climate Bonds Initiative. A reference benchmark has not been designated for the purpose of attaining the environmental and/or social characteristics promoted by the Sub-Fund.
