

BNY MELLON FUTURELEGACY FUND RANGE

Five multi-asset funds managed to remain within Dynamic Planner's risk target managed bands.

● EQUITY
 ● BONDS
 ● CASH AND OTHERS¹

Source: BNY Investments as at 30 June 2025. 1. Cash & Others includes Derivatives. The BNY Mellon FutureLegacy funds are actively managed typically by using forward-looking expectations of volatility. In doing so, the Investment Manager uses its own internal risk model, whilst also considering external independent risk profiling methodologies. Based on a risk profile scale of 1 (lowest) to 10 (highest), the funds target risk profiles of 3, 4, 5, 6 and 7 but this is not guaranteed. The risk profile targeted by each of the BNY Mellon FutureLegacy funds can be identified through the number included in the respective fund's name. This risk profile is not the same as the risk and reward category shown in the funds' Key Investor Information Document(s). The risk profiles of the funds are currently assessed against the risk ratings scale provided by Dynamic Planner, but is subject to change at the ACD's discretion. Ratings are for illustrative purposes only and should not be relied upon when making an investment decision. Dynamic Planner Risk Ratings should not be used for making an investment decision and it does not constitute a recommendation or advice in the selection of a specific investment or class of investments.

Dynamic Planner: Risk-profiling process is driven by rigorous analysis of the underlying asset mix of a fund, as well as considering factors such as the flexibility of the investment mandate, monthly trend analysis of the underlying asset constituents and observed performance. Once this analysis is complete, the data is calibrated to the underlying asset forecast assumptions of the Dynamic Planner model. The expected risk of the fund is then determined using a scale from 1 (lowest) to 10 (highest) which can then be aligned to client risk profiles. Defaqto: Defaqto map funds and MPS portfolios to 10 accumulation risk profiles. A rating of 1 represents the lowest risk; 10 indicates the highest risk. Within the risk profiles, Defaqto use the industry recognised Hymans Robertson strategic asset allocations. FinaMetrica: The FinaMetrica risk test provides a score matching clients' risk tolerance. This mappings guide helps facilitate the investment strategy selection process for a BNY Mellon FutureLegacy fund by matching clients' risk tolerance score to a fund. Oxford Risk: Oxford Risk uses a quant risk model to determine the long-term risk of any fund or portfolio, providing a robust and reliable solution for mapping investors' risk profiles to suitable investments. EV: EV risk-rated fund service is an easy way for advisers to turn their risk questionnaire's output into suitable recommendations on the EV portal. For full ratings please check EV adviser portal. Square Mile: Square Mile is an independent funds research company that 'rates' funds, and provides opinion. The ratings are a guide to the conviction that its analysts have in the ability of a fund manager to achieve their outcome objectives over the longer term. The ratings range from AAA to AA and A for actively managed funds. Rated passive funds are awarded an R for recommended and some younger funds, with shorter track records, are afforded a PP rating, as a 'Positive Prospect'. Synaptic: The Synaptic Risk Rating Service is derived from the risk framework provided by Moody's Analytic's Stochastic engine. It has been created to provide advisers with more robust, quantitative measures for risk than is generally available, and provide the opportunity for them to move away from volatility based ratings.

BNY MELLON FUTURELEGACY FUND RANGE

BNY MELLON FUTURELEGACY 3 FUND

Objective: To achieve capital growth and potential for income over the long term (5 years or more) while being managed to a pre-defined level of risk. The Fund will aim to maintain a risk profile classification of 3 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third-party risk rating agency.

Benchmark: The Fund is actively managed without benchmark- related constraints. The Fund will measure its performance against the Investment Association's Mixed Investment 0-35% Shares NR Sector Average as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of funds with levels of equity and bond exposure similar to those of the Fund.

Note: Effective 1 August 2025, The comparator benchmark changed from 15% SONIA GBP, 55% ICE BofA Global Broad Index GBP Hedged, 30% MSCI ACWI GBP NR to Investment Association's Mixed Investment 0-35% Shares NR Sector Average.

BNY MELLON FUTURELEGACY 4 FUND

Objective: To achieve capital growth and potential for income over the long term (5 years or more) while being managed to a pre-defined level of risk. The Fund will aim to maintain a risk profile classification of 4 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third-party risk rating agency.

Benchmark: The Fund is actively managed without benchmark- related constraints. The Fund will measure its performance against the Investment Association's Mixed Investment 20-60% Shares NR Sector Average as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of funds with levels of equity and bond exposure similar to those of the Fund.

Note: Effective 1 August 2025, The comparator benchmark changed from 10% SONIA GBP, 45% ICE BofA Global Broad Index GBP Hedged, 45% MSCI ACWI GBP NR to Investment Association's Mixed Investment 20-60% Shares NR Sector Average.

BNY MELLON FUTURELEGACY 5 FUND

Objective: To achieve capital growth and potential for income over the long term (5 years or more) while being managed to a pre-defined level of risk. The Fund will aim to maintain a risk profile classification of 5 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third-party risk rating agency.

Benchmark: The Fund is actively managed without benchmark- related constraints. The Fund will measure its performance against the Investment Association's Mixed Investment 40-85% Shares NR Sector Average as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of funds with levels of equity and bond exposure similar to those of the Fund.

Note: Effective 1 August 2025, The comparator benchmark changed from 10% SONIA GBP, 45% ICE BofA Global Broad Index GBP Hedged, 45% MSCI ACWI GBP NR to Investment Association's Mixed Investment 40-85% Shares NR Sector Average.

BNY MELLON FUTURELEGACY 6 FUND

Objective: To achieve capital growth and potential for income over the long term (5 years or more) while being managed to a pre-defined level of risk. The Fund will aim to maintain a risk profile classification of 6 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third-party risk rating agency.

Benchmark: The Fund is actively managed without benchmark- related constraints. The Fund will measure its performance against the Investment Association's Mixed Investment 40-85% Shares NR Sector Average as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of funds with levels of equity and bond exposure similar to those of the Fund.

Note: Effective 1 August 2025, The comparator benchmark changed from 25% ICE BofA Global Broad Index GBP Hedged, 75% MSCI ACWI GBP NR to Investment Association's Mixed Investment 40-85% Shares NR Sector Average.

BNY MELLON FUTURELEGACY 7 FUND

Objective: To achieve capital growth and potential for income over the long term (5 years or more) while being managed to a pre-defined level of risk. The Fund will aim to maintain a risk profile classification of 7 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third-party risk rating agency.

Benchmark: The Fund is actively managed without benchmark- related constraints. The Fund will measure its performance against the Investment Association's Flexible Investment NR Sector Average as a comparator benchmark (the "Benchmark"). The Fund will use the Benchmark as an appropriate comparator because it includes a broad representation of funds with levels of equity and bond exposure similar to those of the Fund.

Note: Effective 1 August 2025, The comparator benchmark changed from 10% ICE BofA Global Broad Index GBP Hedged, 90% MSCI ACWI GBP NR to Investment Association's Flexible Investment NR Sector Average.

KEY INVESTMENT RISKS

- **Objective/Performance Risk:** There is no guarantee that the Funds will achieve their objectives.
- **Currency Risk:** These Funds invest in international markets which means they are exposed to changes in currency rates which could affect the value of the Funds.
- **Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Funds can lose significantly more than the amount they have invested in derivatives.
- **Changes in Interest Rates & Inflation Risk:** Investments in bonds/money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Funds.
- **Credit Ratings and Unrated Securities Risk:** Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Funds.
- **Credit Risk:** The issuer of a security held by the Funds may not pay income or repay capital to the Funds when due.
- **Emerging Markets Risk:** Emerging Markets have additional risks due to less-developed market practices.
- **Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect (“Stock Connect”) risk:** The Funds may invest in China A shares through Stock Connect programmes. These may be subject to regulatory changes and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Funds’ ability to achieve their investment objectives.
- **Volcker Rule Risk:** The Bank of New York Mellon Corporation or one of its affiliates (“BNYM”) has invested in these Funds. As a result of restrictions under the “Volcker Rule,” which has been adopted by U.S. Regulators, BNYM must reduce its shareholding percentage so that it constitutes less than 25% of the Funds within, generally, three years of the Funds’ establishment (which starts when the Funds’ manager begins making investments for the Funds). Risks may include: BNYM may initially own a proportionately larger percentage of the Funds, and any mandatory reductions may increase Fund portfolio turnover rates, resulting in increased costs, expenses and taxes. Details of BNYM’s investment in the Funds are available upon request.
- **CoCo’s Risk:** Contingent Convertible Securities (CoCo’s) convert from debt to equity when the issuer’s capital drops below a pre-defined level. This may result in the security converting into equities at a discounted share price, the value of the security being written down, temporarily or permanently, and/or coupon payments ceasing or being deferred.
- **Sustainable Funds Risk:** The Funds follow a sustainable investment approach, which may cause them to perform differently than Funds that have a similar objective but which do not integrate sustainable investment criteria when selecting securities. The Funds will not engage in stock lending activities and, therefore, may forego any additional returns that may be produced through such activities.
- **Investment in Infrastructure Companies Risk:** The value of investments in Infrastructure Companies may be negatively impacted by changes in the regulatory, economic or political environment in which they operate.
- **Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Funds to financial loss.

The value of investments can fall. Investors may not get back the amount invested. Income from investment may vary and is not guaranteed.

IMPORTANT INFORMATION

For Professional Clients only. This is a financial promotion. Please refer to the prospectus and the KIID before making any investment decisions.
